The books in this series offer illustrated biographies in the categories of sport, film and music, politics and history and contain lots of interesting facts and photographs to sustain the interest of the beginner reader.

Volume two of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain. It lists all secondary source material including reference works, in a classified order to meet the needs of the sports historian.

There has been an explosion in the quantity of sports history literature published in recent years, making it increasingly difficult to keep abreast of developments. The annual number of publications has increased from around 250 to 1,000 a year over the last decade. This is due in part to the fact that during the late 1980s and 90s, many clubs, leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements. It is also the result of the growing popularity and realisation of the importance of sport history research within academe. This international bibliography of books, articles, conference proceedings and essays in the English language is a one-stop for the sports historian to know what is new.

Written by experienced special needs teachers, and fully assessed by The Basic Skills Agency to ensure accessibility in both layout and content, the Livewire: Real Lives series features personalities from sport, film and music, politics and history. The Livewire Real Lives series provides stimulating reading materials with a teenage/adult interest level for those with reading ages below ten or for adult students learning English as a foreign language. Facts and photographs sustain the interest of the beginner reader. The books are subtly colour-coded for the appropriate 'reading age' and have superb photographs throughout. Steven Spielberg is a famous film director. He has had many box office hits, including Jaws, E.T. and Jurassic Park. Read about his life, from his childhood to his amazing career in the film industry in this book.

The second edition of this indispensable guide to British (not American) football contains over 7,000 entries arranged in fourteen chapters. With greatly increased coverage of football films and music, every facet of association football from 1863 to the present is covered. Knowledgeable essays, reviews, and annotations guide the reader through the wealth of UK literature. This is a significant addition to the literature of association football, and required reading for collectors and fans of the game.
