Receiving a horrific essay from a GED student with a traumatic past, high-school English teacher Jake Epping is enlisted by a friend to travel back in time to prevent the assassination of John F. Kennedy, a mission for which he must reacclimate to 1960s culture and befriend troubled loner Lee Harvey Oswald. By the best-selling author of Full Dark, No Stars.	
	

One of the Ten Best Books of The New York Times Book Review Winner of the Los Angeles Times Book Prize Now a miniseries from Hulu starring James Franco ON NOVEMBER 22, 1963, THREE SHOTS RANG OUT IN DALLAS, PRESIDENT KENNEDY DIED, AND THE WORLD CHANGED. WHAT IF YOU COULD CHANGE IT BACK? In this brilliantly conceived tour de force, Stephen King—who has absorbed the social, political, and popular culture of his generation more imaginatively and thoroughly than any other writer—takes readers on an incredible journey into the past and the possibility of altering it. It begins with Jake Epping, a thirty-five-year-old English teacher in Lisbon Falls, Maine, who makes extra money teaching GED classes. He asks his students to write about an event that changed their lives, and one essay blows him away—a gruesome, harrowing story about the night more than fifty years ago when Harry Dunning ’s father came home and killed his mother, his sister, and his brother with a sledgehammer. Reading the essay is a watershed moment for Jake, his life—like Harry ’s, like America ’s in 1963—turning on a dime. Not much later his friend Al, who owns the local diner, divulges a secret: his storeroom is a portal to the past, a particular day in 1958. And Al enlists Jake to take over the mission that has become his obsession—to prevent the Kennedy assassination. So begins Jake ’s new life as George Amberson, in a different world of Ike and JFK and Elvis, of big American cars and sock hops and cigarette smoke everywhere. From the dank little city of Derry, Maine (where there ’s Dunning business to conduct), to the warmhearted small town of Jodie, Texas, where Jake falls dangerously in love, every turn is leading eventually, of course, to a troubled loner named Lee Harvey Oswald and to Dallas, where the past becomes heart-stoppingly suspenseful, and where history might not be history anymore. Time-travel has never been so believable. Or so terrifying.

"Successful businessman Ron Winston stumbles upon the find of the century; new evidence in the mysterious assassination of President John F. Kennedy. As word leaks out about his discovery, Winston is pursued by shadowy figures from the underworld...and his own government."—Publisher’s description.

On November 22, 1963, a murder was committed in Dallas, Texas. Nearly 80 percent of the American people don’t believe the victim was killed by a lone gunman. The House Assassinations Committee determined it was the work of “a conspiracy,” yet no conspirators were ever identified or brought to justice. For more than forty years the case has remained unsolved—until now. Mark Fuhrman has cracked some of the best-known, most puzzling crimes in American history. In A Simple Act of Murder, he investigates the tragedy that rocked a nation: the assassination of President John F. Kennedy. Cutting through the myths and misinformation, Fuhrman focuses on the hard evidence, unveiling a major clue that was ignored for more than four decades—a breakthrough that will change the ongoing debate forever. Once you read this book, you’ll know definitively who killed JFK.

Simon Morley is selected by a secret government agency to test Einstein's theory of the past co-existing with the present and is transported back to 1890s New York

William Manchester's epic and definitive account of President John F. Kennedy's assassination—now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book universally acclaimed as a landmark work of modern history.

In perhaps his most important literary feat, Norman Mailer fashions an unprecedented portrait of one of the great villains—and enigmas—in United States history. Here is Lee Harvey Oswald—his family background, troubled marriage, controversial journey to Russia, and return to an " America [waiting] for him like an angry relative whose eyes glare in the heat. " Based on KGB and FBI transcripts, government reports, letters and diaries, and Mailer 's own international research, this is an epic account of a man whose cunning, duplicity, and self-invention were both at home in and at odds with the country he forever altered. Praise for Oswald "s Tale " America 's largest mystery has found its greatest interpreter. " —The Washington Post Book World " Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance. . . . From the American master conjurer of dark and swirling purpose, a moving reflection. " —Robert Stone, The New York Review of Books " A narrative of tremendous energy and panache, the author at the top of his form. " —Christopher Hitchens, Financial Times " The performance of an author relishing the force and reach of his own acuity. " —Martin Amis, The Sunday Times (London) Praise for Norman Mailer " [Norman Mailer] loomed over American letters longer and larger than any other writer of his generation. " —The New York Times " A writer of the greatest and most reckless talent. " —The New Yorker " Mailer is indispensable, an American treasure. " —The Washington Post " A devastatingly alive and original creative mind. " —Life " Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance. " —The New York Review of Books " The largest mind and imagination [in modern] American literature. . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book. " —Chicago Tribune " Mailer is a master of his craft. His language carries you through the story like a leaf on a stream. " —The Cincinnati Post
