This makes a cheery pink cocoa that's perfect for the holiday. To make it extra special, top it with a handful of mini marshmallows and some festive pink sprinkles. The only problem with this recipe is that you have to make it on the stove and then sit down and drink it right away, while it's still hot.

culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Foregrounding street art in the capital cities of Cuba, Haiti, and Puerto Rico, this book argues that Antillean street artists diagnose the “impossible state” of the arrested present (colonized, occupied, or under dictatorship) while simultaneously imagining liberated futures and fully sovereign states. Jana Evans Braziel launches a comparative study of art, politics, history, urban street cultures, engaged citizenships, and social transformations in three Antillean capital cities—Havana, Cuba; Port-au-Prince, Haiti; and San Juan, Puerto Rico—of the Greater Caribbean. The book includes a photo documentary archive of street art, murals, and installations by key muralists in these cities: Yulier Rodríguez Pérez, “Jerry” Rosembert Moïse, and Colectivo Moriviví (Chachi González Colón, Raysa Rodríguez García, and Salomé Cortés). Braziel offers art historical and geopolitical analyses of the urban street art in their cities of production, underscoring street art as political, economic, and environmental engagements (and not as exclusively aesthetic ones) with urban space and street life. The book will be of interest to scholars working in art history, Caribbean studies, Latin American studies, and urban studies.

Mademoiselle presents photographs of Coco Chanel taken by Douglas Kirkland in 1962 on assignment in Paris for the American magazine *Look*. These photos reveal both the working fashion icon and the sympathetic character beneath, showing Mademoiselle leaving her suite at the Ritz Hotel, in her apartment and studio at 31 rue Cambon, and watching a défilé from the famous mirrored staircase. Karl Lagerfeld has conceived and designed Mademoiselle, as well as written an introduction and captions to Kirkland's photos. Images left behind are in the end

stronger than truth and facts. Through Kirklands images we can imagine what the famous Coco had been all about before she became the formidable Chanel. (Karl Lagerfeld) Douglas Kirkland was born in Toronto and spent much of his career in New York City before moving to Los Angeles in the 1970s. First an apprentice to Irving Penn, he began his independent career at Look and Life magazines in the 1960s and 1970s. Kirkland famously depicted Marilyn Monroe, has photographed on the sets of more than 100 films, and was named Photographer of the Year by the Photolmaging, Manufacturers, and Distributing Association in 2002. Karl Lagerfeld, fashion designer, book dealer and publisher, began working as a photographer in 1987. He has received the Lucky Strike Design Award from the Raymond Lewy Foundation, the cultural prize from the German Photographic Society, and the ICP Trustees Award at the International Center of Photographys Infinity Awards in 2007. Steidl has published most of Lagerfelds photography books, including Casa Malaparte, Aktstrakt, A Portrait of Dorian Gray, Room Service, Palazzo, Metamorphoses of an American and others.

“An intriguing, well-rounded portrait of a fascinating woman whose many important contributions to art and fashion remain popular today.” —Kirkus Reviews Award-winning author Susan Goldman Rubin introduces readers to the most well-known fashion designer in the world, Coco Chanel. Beginning with the difficult years Chanel spent in an orphanage, Goldman Rubin traces Coco’s development as a designer and demonstrates how her determination to be independent helped her gain worldwide recognition. Coco Chanel focuses on the obstacles Chanel faced as a financially independent woman in an era when women were expected to marry; as well as her fierce competition with the Italian fashion designer Elsa Schiaparelli; and some of her most memorable firsts for the fashion industry, including the little black dress, the quilted purse with gold chain, and the perfume Chanel No. 5. The book includes a bibliography, a list of where to see her work, and an index. “Rubin’s biography is clear-sighted about Chanel’s faults while extolling her fashion genius. Her source notes and bibliography are meticulous, as is the book’s design . . . This will attract young fashion mavens eager to learn about design history.” —Booklist “Rubin expertly chronicles Chanel’s life in this biography . . . Rubin captures the authenticity of Chanel alongside her psychological need to portray a luxurious lifestyle.” —VOYA “A well-researched primer packed with details on a significant trailblazer.” —School Library Journal “Well-designed biography of a fascinating woman.” —School Library Connection “A succinct, balanced portrayal of controversial haute couturière Gabrielle ‘Coco’ Chanel.” —Publishers Weekly

Most women have no access to the power of their pelvis. Women who are sensuously aware of their pelvic floor and know how to use it are authentic, powerful, and sexy. They're aligned with themselves. They know what they want, and they have the mental clarity and the physical energy to achieve
