Weekly* An essential read for our times: an eye-opening memoir of working-class poverty in America that will deepen our understanding of the ways in which class shapes our country and “a deeply humane memoir that crackles with clarifying insight”.* Sarah Smarsh was born a fifth generation Kansas wheat farmer on her paternal side, and the product of generations of teen mothers on her maternal side. Through her experiences growing up on a farm thirty miles west of Wichita, we are given a unique and essential look into the lives of poor and working

class Americans living in the heartland. During Sarah's turbulent childhood in Kansas in the 1980s and 1990s, she enjoyed the freedom of a country childhood, but observed the painful challenges of the poverty around her; untreated medical conditions for lack of insurance or consistent care, unsafe job conditions, abusive relationships, and limited resources and information that would provide for the upward mobility that is the American Dream. By telling the story of her life and the lives of the people she loves with clarity and precision but without

judgement, Smarsh challenges us to look more closely at the class divide in our country. Beautifully written, in a distinctive voice, Heartland combines personal narrative with powerful analysis and cultural commentary, challenging the myths about people thought to be less because they earn less. “Heartland is one of a growing number of important works—including Matthew Desmond’s *Evicted* and Amy Goldstein’s *Janesville*—that together merit their own section in nonfiction aisles across the country: America’s postindustrial decline...Smarsh shows how
