Though intended as a supplement to the one-volume Latin course by F. M. Wheelock, this book is well suited for use in any introductory Latin course. All the stories in the book are based on actual Latin literature, with the stories simplified at first and made gradually more complex as the work progresses.

This Teacher's Guide to Thirty-Eight Latin Stories provides a literal translation answer key for all of the stories found in the popular reader. The Guide was developed in response to frequent requests from teachers, homeschoolers, and people who are learning Latin on their own. The translations are not meant to be artistic or literary, but instead straightforward keys to the stories. They are as literal as possible, without being awkward or stilted.

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded: o 40 chapters with grammatical explanations and readings based on ancient Roman authors o Self-tutorial exercises with an answer key for independent study o An extensive English-Latin/ Latin-English vocabulary section o A rich selection of original Latin readings -- unlike other textbooks which contain primarily made-up Latin texts o Etymological aids Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings. o The leading self-tutorial Latin program. Also great for college and accelerated high school courses. o Wheelock's Latin is the top-selling Latin reference in the US. o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

Originally designed as a supplement to the Latin course by F. M. Wheelock, this book is well suited for use in any introductory or review course. All the stories in the book are based on actual Latin literature, with the stories simplified at first and made gradually more complex as the work progresses. Students will learn how classical Latin was really written as they become familiar with the works of the great Latin authors.

Teaches children the basics of Latin grammar and vocabulary, as well as Roman British history and culture, through vocabulary lists, mythical tales, and illustrations.

Thousands of students have found these books the ideal way to master the grammar of their chosen language. They offer a step-by-step explanation of a concept as it applies to English, a presentation of the same concept as it applies to the target language, the similarities and differences between the two languages, stressing common pitfalls for English speakers and including review exercises with an answer key.

From the Preface: Most Americans who have studied Latin, with our priests and seminarians included, have employed this method, which they thought was 'traditional'. But as something fully developed, this tradition scarcely goes farther back than 1880; and even in its beginnings it hardly antedates the seventeenth century. In contrast to this method of grammatical analysis, Father Most's textbooks reproduce much of the "natural method" by which children learn their native language. Hence, the significance of Father Most's books is manifestly great for the Latin classes in any Catholic high schools or colleges. So much of our Catholic doctrine and culture have been deposited in Latin that we want many of our educated Catholics to be able to use Latin with ease. But the special significance of Father Most's texts is for the Latin classes in our seminaries. Here the students still have much the same cogent motives to master the art of using Latin with ease as the pupils of the thirteenth or sixteenth century. They need it as an indispensable means of communicating thought in their higher studies, and afterwards throughout life. The objectives (knowledge about Latin and training of mind) and corresponding methods (grammatical analysis and translation) "traditional" since 1880 have taken over in our seminaries; and there too the students have been experiencing an ever growing inability to use Latin. Father Most's textbooks can contribute much towards revolutionizing the teaching of Latin by bringing back, as the chief objective, the art of reading, writing, and (when desired) speaking Latin with ease." Fr. Most's textbooks can be classed in categories of similar texts, such as Hans Ørberg's Lingua Latina, as well as Ecce Romani which is a simplification of Ørberg or others which aim to teach Latin not even so much as a modern language, as to teach it by a method more natural to the philosophy of learning Languages. Fr. Most's text follows the view that Latin of the later period is actually more advanced in communicating ideas and is easier to learn than Latin of the classical period, and thus this Second Volume begins the transition with readings and vocabulary from the Vulgate, continuing with the more ancient collects of the 1962 Missale Romanum, St. Cyprian and culminating with a reading from the Roman Historian Sallust. This is an excellent text applying the "natural method" with English language instruction to help the student read and understand Latin natively, with numerous vehicles for simplifying the necessary memorization as well as aiding in truly understanding Latin without constant need to look in a dictionary for rudimentary sentences. This is reprinted from the 1960 edition, and follows the presentation of the text found in that edition.
