3 Commando Brigade - eliteukforces.info

3 Commando Brigade's job was to establish a bridgehead before the Army's 5th Infantry Brigade (5th Inf Bde) arrived to help complete the recapture of the Falklands. Its teeth were three Royal Marine Commandos each with three rifle companies of 120 men each, one HQ and one support company, all backed up by a number of other Marine and commando-trained Army units.

3 Commando Brigade, Royal Marines - Falklands War 1982

Built 1967 and served with No.3 Commando Brigade Air Squadron. She was later part of the Army Air Corps Historic Flight before becoming a gate guard. The original XT123 crashed in Oman on 1st August 1968. It was then dropped by the Westland Scout that was recovering it and was subsequently struck off charge and used for spares.

Major General Julian Thompson first wrote No Picnic when the momentous events of April - June 1982 were fresh in his mind. As Commander of 3 Commando Brigade, he was at the heart of the planning and conduct of the War. Under his direct command had been the Royal Marine Commandos and the two battalions of the Parachute Regiment who conducted the lion's share of the fighting.No-one therefore is better qualified to tell the extraordinary story of there-taking of the Falkland Islands from the Argentinians. The author, now a celebrated military historian, has revised his early book and added for this 25 Anniversary edition more of his own personal thoughts and impressions.It is all too easy to overlook just how perilous and risky a venture this expedition to the depths of the Southern Hemisphere was. Victory and defeat hung in the balance. Even those who feel they know about this most remarkable of wars will learn more from reading this classic account.

	
	

From 2008, the Royal Marine Commandos were deployed in Afghanistan on Operation Herrick 9, with the goal of seeking out the Taliban in their lairs and hitting them hard through lightning-fast helicopter strikes and raids deep into their territory. Over seven months, thirteen dramatic airborne assaults were conducted against established Taliban positions in Helmand Province, involving daily firefights in the harsh conditions of the Afghan desert. The raids were fierce and heavy enemy resistance was often encountered. On one mission, the Marines seized a u50 drugs haul after helicopters including Chinooks, Sea Kings and Lynx inserted over 500 commandos into their landing sites at the site, which intelligence had suggested was a base for narcotics production. On other raids, Marines had to battle terrible conditions, mud and rough terrain in order to secure areas and reassure the local people that the Taliban had been driven out. Along with their troops on the ground, the Marines of Herrick 9 came under attack from rocket launchers, grenades, RPGs and snipers, often fighting through the night in true, bold, unflinching commando style. 3 Commando Brigade, Airborne Assault is the story of this intense period in time, told by the Marines themselves. The fear, tension and excitement as well as the difficulties faced on the tour are described by the men in the air and on the ground.

The 3 Commando Brigade's six month deployment in Helmand Province was among the finest pieces of soldiering I have come across' General Sir Richard Dannett, Chief of General Staff In October 2006, the Royal Marine Commandos took up their six month tour of duty in war-torn Helmand Province, southern Afghanistan - the toughest and hottest war zone on earth. After the tactical retreat of their predecessors, the Paras, the Marines knew they would have to take a different approach to have any chance of success. So they took the war to the enemy. Roving and aggressive, the Commandos forced the insurgent Taliban on to the back foot. As a result, they were involved in daily fire fights of an intensity not encountered by British troops since North Korea. 3 Commando Brigade is a thrilling first-hand account of that dogged, heroic pursuit of the Taliban by the ordinary Marines, sailors and soldiers responsible. It is a story of valour, fortitude, supreme physical and mental fitness, and unrivalled professionalism under the most testing of circumstances. The account explodes from the first page with Operation Glacier, a graphic, no-holds-barred account of a Commando attack on a key Taliban base south of Garmsir - a battle that ends with the dramatic recovery of a Corporal's body from alongside the fort by Apache helicopters. From this opening salvo the action never lets up, offering a startlingly honest account of the war in Afghanistan as told by the junior officers, corporals and marines on the ground.

When the Royal Marines Commandos returned to a chaotic Helmand in the winter of 2008, they realised that to stand any chance of success they would need to pursue an increasingly determined Taliban harder than ever before. This time they were going to hunt them down from the air. With the support of Chinooks, Apaches, Lynx, Sea Kings and Harriers, the Commandos became a deadly mobile unit, able to swoop at a moments notice into the most hostile territory. From huge operations like the gruelling Red Dagger, when 3 Commando Brigade fought in Somme-like mud to successfully clear the area around the capital of Helmand, Lashkar Gar, of encroaching enemy forces, to the daily acts of unsupported, close-quarters 360-degree combat and the breath-taking, rapid helicopter night assaults behind enemy lines - this was kind of battle that brought Commando qualities to the fore. As with the Sunday Times bestselling 3 Commando Brigade, ex-Marine Lieutenant Colonel Ewen Southby-Tailyour brings unparalleled access to the troops, a soldier's understanding of the conflict and a visceral sense of the combat experience. This is the real war in Afghanistan as told to him by a hand-picked band of young fellow marines as they encounter the daily rigours of life on the ground in the world's most intense war zone.

The 1982 British campaign to recapture the Falkland Islands was a naval operation of relatively short duration. Nevertheless, many of the British lessons learned are applicable to the U.S. Army. No notice deployment, assignment as part of a naval landing force, and combat operations beyond the range of land based close air support are all reasonable missions for light divisions. This study analyzes one aspect of the British experience-the use of fire support by 3 Commando Brigade Royal Marines. Through historical review, the study examines the use of mortars, artillery, naval gunfire, and close air support to complement ground maneuver. The purpose behind the study is to highlight the effectiveness with which 3 Commando Brigade utilized fire support during an island invasion, slightly more than one year before the U.S. Army experience in Grenada. Conclusions focus on three areas. In the first area, fire support relationships, the study contends that the British marriage of maneuver and fire support is exceptionally strong and that the strength is largely attributable to the utilization of the artillery battery commander at maneuver battalion headquarters. In the second area, fire support for naval operations, the importance of Army interoperability with naval gunfire and air support is developed. In the third area, fire support effects, the study asserts that the mental effects of fire support were a major contributor to British victory.
