A clear, non-technical discussion of grammar and outstanding coverage of the writing process make The Basics a complete brief rhetoric as well as an exceptional reference tool. One of the few brief handbooks with integrated exercises, The Basics helps students successfully transfer what they learn to their own writing.

This new edition of Writing Today builds on the first edition's strengths—an emphasis on both academic and workplace writing, a straightforward voice directed to the student writer, and a practical approach to sentence and paragraph development—by adding the following features: chapters on student success, writing proposals, writing critiques, group projects and oral presentations, and designing documents. As well, the text has nearly twice the first edition's number of opportunities for students to write about visual elements and images. This edition is in full-color format, helping to engage students as they focus on both the academic and applied contexts of writing.

This text offers beginning writers complete coverage of important writing techniques and an easy-to-use handbook of grammar and usage. It can be used as an effective classroom tool as well as used independently by students working on assignments. The Basics has an engaging writing style and focuses on what is truly important and common. A variety of practice exercises and assignments allow students to apply the practical techniques presented in the book.
