First published in 1926, 'The Richest Man in Babylon' is an inspirational classic that is celebrated as the greatest of books on finances by George S. Clason, an American author. Clason was a successful businessman who founded the Clason Map Company of Denver, Colorado, and published the first road atlas of the United States and Canada. This book was initially a prominent series of pamphlets on thrift and financial success, using parables set in ancient Babylon, written by Clason, and circulated in large quantities by banks and insurance companies and later became familiar to millions. It is a timeless classic, revealing the secrets to making money and keeping it. It reveals the secrets to wealth, providing priceless guidance, advice, unforgettable parables, financial problem-solving tools, and invaluable information which will get you on your way to prosperity. This book is an essential read for all who want to attain financial well-being. The parables are told by a fictional Babylonian character called Arkad, a poor scribe who evolved as the richest man in Babylon. Incorporated in Arkad's advice are the 'Seven Cures' (or how to generate money and wealth), and the 'Five Laws of Gold' (or how to protect and invest wealth). An essence of Arkad's advice is around 'paying yourself first', 'living within your means', 'investing in what you know', the importance of 'long-term saving', and 'homeownership'. Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money-and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and 'revise' it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!
