Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations. The book begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety and accompanied by diseases which would ravage the native populations. It explores the tensions inherent in a country built on slave labour in the name of liberty, one forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. These voices help define the United States at the dawn of a new century.

Looks at the decay of the tsarist empire and the causes of the Revolution, discusses the aims of the Bolshevik party, and recounts the major events of the conflict

An incisive account of the entire history of historical writing worldwide by one of the leading intellectuals in the field.

A Concise History of the Caribbean presents a general history of the Caribbean islands from the beginning of human settlement about seven thousand years ago to the present. It narrates processes of early human migration, the disastrous consequences of European colonization, the development of slavery and the slave trade, the extraordinary profits earned by the plantation economy, the great revolution in Haiti, movements toward political independence, the Cuban Revolution, and the diaspora of Caribbean people. Written in a lively and accessible style yet current with the most recent research, the book provides a compelling narrative of Caribbean history essential for students and visitors.

This concise yet rich introduction to the French Revolution explores the origins, development, and eventual decline of a movement that defines France to this day. Through an accessible chronological narrative, Sylvia Neely explains the complex events, conflicting groups, and rapid changes that characterized this critical period in French history. She traces the fundamental transformations in government and society that forced the French to come up with new ways of thinking about their place in the world, ultimately leading to liberalism, conservatism, terrorism, and modern nationalism. Throughout, the author focuses on the essential political events that propelled the Revolution, at the same time deftly interweaving the intellectual, social, diplomatic, military, and cultural history of the time. Neely explains how the difficult choices made by the royal government and the revolutionaries alike not only brought on the collapse of the Old Regime but moved the nation into increasingly radical policies, to the Terror, and finally to the rise of Napoleon Bonaparte. Written with clarity and nuance, this work offers a deeply knowledgeable understanding of the political possibilities available at any given moment in the course of the Revolution, placing them in a broad social context. All readers interested in France and revolutionary history will find this an engaging and rewarding read.

Presents an account of Chinese history, from prehistoric times through the post-Revolution era.

From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the unfolding of events have such significant consequences for America. A Concise History of the Arabs argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators. McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

Margaret Conrad's history of Canada begins with a challenge to its readers. What is Canada? What makes up this diverse, complex and often contested nation-state? What was its founding moment? And who are its people? Drawing on her many years of experience as a scholar, writer and teacher of Canadian history, Conrad offers astute answers to these difficult questions. Beginning in Canada's deep past with the arrival of its Aboriginal peoples, she traces its history through the conquest by Europeans, the American Revolutionary War and the industrialization of the nineteenth and twentieth centuries to its prosperous present. Despite its successes and its popularity as a destination for immigrants from across the world, Canada remains a curiously reluctant player on the international stage. This intelligent, concise and lucid book explains just why that is.

This is an authoritative history of the twelve years of the Third Reich from its political takeover of January 30, 1939 to the German capitulation in May 1945.

An illustrated introduction to Mexico's historical and contemporary issues, problems and events.
