With A Human Love Story I connect with individuals and groups as I walk and journey, meeting people where I find them; on the path, on the street, in the pub, around the corner, at the opera, in church, in prison, in their homes. I also organise gatherings in communities working with specific groups to explore areas of experience.

[An archive of real-life stories about all aspects of human relationships] curated by a man traveling on foot throughout Scotland (BBC Arts). Matt Hopwood set off with just a small bag and a walking stick, no possessions and an open mind to walk many hundreds of miles the length and breadth of the country. He relied entirely on the generosity of strangers for shelter and asked people to tell him their transforming stories. They did. All of these deeply entralling, profoundly honest stories weave a web of tenderness, connection, compassion and community. For some people their love story will span decades and tell a tale of romantic love evolving through the passing years. Others' stories express fleeting moments of connection, care, concern. Most love stories are marked by sadness and loss. Some stories are concerned with maternal and paternal love, others with a love of place, a visceral connection with spirit through landscape. Love stories also connect deeply with our identities, in how we belong and how we are welcomed in society. Each story is different. Each beautiful. Each valuable. [A delicately woven tapestry of human life, collected by a stranger who offered an ear to listen without judgment and who has the depth of soul to interpret the complicated layers of love.] [from the foreword by Clare Balding] [This thoughtfully presented lexicon of love contains honest accounts from men and women of all ages and offers an antidote to a life where it can be surprisingly hard to say [I love you.]]The Wee Review

From the world's foremost neuroscientist of romantic love comes a personal story of connection and heartbreak that brings new understanding to an old truth: better to have loved and lost than never to have loved at all. At thirty-seven, Dr. Stephanie Cacioppo was content to be single. She was fulfilled by her work on the neuroscience of romantic love; how finding and growing with a partner literally reshapes our brains. That was, until she met the foremost neuroscientist of loneliness. A whirlwind romance led to marriage, to sharing an office at the University of Chicago. After seven years of being inseparable at work and home, she lost her beloved husband following a devastating battle with cancer. In Wired for Love, Dr. Stephanie Cacioppo tells not just not just a science story, but also a love story. She shares revelatory insights into how we fall in love, and why; what makes love last; and how we process love lost-all grounded in cutting-edge findings in brain chemistry and behavioural science. Woven through it all is her moving personal story, from astonishment, to unbreakable bond, to grief and healing. Her experience and her work enrich each other, creating a singular blend of science and lyricism that's essential reading for anyone looking for connection.

Nicky Bell, diagnosed with Ewing's Sarcoma at age thirteen, died five years later, with his mother and best friend at his side. A Journey of Unconditional Love tells Nicky and Michele's story, describing the battle with cancer in great detail. However, this book is about more than cancer and its treatment and the fight to survive. It's about more than a mother and her son who had to face his mortality at such a young age and the despair and anguish that comes in losing that fight. It's about more than death . . . This book is about life. It's about how this mother and son approached the everyday moments of life despite the greater story that was playing out around them and was outside of their control. It's about what each had learned from the other and the influential roles played in their life experiences. It is about how it still affects the life of the one left behind. It's about the depth of human spirit and the soul's ultimate survival, along with what the survivor is supposed to do with that energy. The connection between this mother and her son has lived on long after his passing, and it continues to be a force in this mother's life every day. The inspiration in this story comes from the millions of small everyday moments, the choices made, the words spoken, and the unconditional love that makes such a seemingly senseless experience somehow bearable. This book gives a voice to parents and loved ones, caregivers and patients, those who relate to this loss, and those who know they feel every heartbeat in this story but who also struggle to come to grips with their own experience.

Raina was scared to fall in love with a human and no human would love her after knowing who she was, a cursed Witch. Hiding her past in the ancient forests of India; as hauntingly beautiful as they were. But they carried her secret loyally through all those centuries, never betraying her even once. However, she betrayed her own self and fell in love with Jason.She tried her best to stay away from her love, a human. She did not want him to meet the same fate as someone very special did, half a century ago. But love had its ways, and it did manage to creep into their lives. As fantasy merged with reality, they lived their simple and human lives and made a world together. Although love conquers all but fantasy could not become a reality for them. Raina's sweet little love story was going to be shattered into pieces soon...And her own mother would once again come to her to take away her love, her life, and her happiness. However, this time, she will not let life slip by as easily. She will live, and she will love till her final breath. She will not repent loving Jason ever. This is a cross genre literary fantasy aimed at readers interested in reading literary work fused with romance and fantasy.

A journalist describes how she overcame personal challenges through a relationship with a famous Arapahoe quadriplegic horse trainer from whom the author learned spiritually transforming life lessons; a personal journey during which she came to deeply love Wyoming's Native American culture.

Beyond broad shoulders and heaving bosoms. It takes love to face reality and conquer messy feelings. In this modern-day pastiche of Jane Austen novels, Elise is a bright, beautiful law student, focused on a career and distrustful of men, who butts heads with Greg, an alpha male haunted by past relationships. But unable to deny their feelings, they spend a night together. A jilted fiancée exacts revenge and forces them to face who they are and what they really want. A delicious romance with a literary slant, spiced with a twist of whodunit.

A Love Story for Susan is a story of hope in our world. This book describes the journey taken by the author into his mind. There, he faced the darkness of his personal hell, earning the right to stand in the brilliance of God's light at journey's end. The journey into self is a journey any person can choose to take. This book appeals to those people who are struggling with the meaning of their existence. It is a struggle many are choosing to face at this time because the desire to discover one's truth is a desire that lives in all of us. A Love Story for Susan convincingly demonstrates the importance of love in the healing of a human mind. The author's story is an inspirational example of how to transmute pain into strength and gain a new life by doing so. His goal was simply to find his true self. Little did he know that God waits patiently for those who make the journey to truth, the journey to self. A Love Story for Susan is the story of the author's journey home.

There were two souls in the universe waiting to be united. One individual was in Rhode Island, and the other was in Massachusetts. One was a tiny toy poodle, and the other was a compassionate human being. Both were struggling with challenges in their lives before the union. Neither one knew they were going to meet someday. The human being had a vision to the universe to find a toy poodle. Perhaps the tiny poodle also had a vision to the universe to find a loving home. The tiny poodle was a scrubby stray found on a hot day under a car, with hair so long and badly matted, he could not even move. He weighed three pounds. The human read about the tiny poodle and went to the shelter, where they cleaned him up so well that he looked so beautiful. Five people were interviewed, but the compassionate human was the lucky one chosen, or they were lucky to find each other. They brought each other peace, comfort, and love in a true, loving bond. It was meant to be. They awakened each other's souls and had such an amazing journey together that will touch your heart.

An exploration of the way Adam and Eve introduced the idea of love into the world, and how they continue to shape our deepest feelings about relationships, family, and togetherness. Since antiquity, Adam and Eve have stood at the center of every conversation about men and women. Yet instead of celebrating them, history has blamed them for bringing sin, deceit, and death into the world. In this fresh retelling of their story, Bruce Feiler travels from the Garden of Eden in Iraq to the Sistine Chapel in Rome, discovering how Adam and Eve should be hailed as exemplars of a long-term, healthy, resilient relationship. At a time of discord and fear over the strength of our social fabric, Feiler shows how history's first couple can again be role models for unity, forgiveness, and love.
