Soraya Nazari has graduated from university, she thinks it 's time to get some of the life experience she feels she 's lacking, partly due to her strict upbringing—and Magnus Evans seems like the perfect way to get it. Where she 's the somewhat timid, artistic daughter of Iranian immigrants, Magnus is the quintessential British lad. They have little in common, so there 's no way Soraya could ever fall for him. What 's the harm in having some fun as she navigates her postgrad life? And he could give her some distance from her increasingly complicated home life, where things are strained by her father 's struggles, her mother 's unhappiness and her eldest sister 's estrangement under a vague cloud of shame fifteen years earlier. Distracting herself with Magnus is easy at first. But just as Soraya realizes there 's more to Magnus than she thought, long-buried secrets, and hard questions, begin to surface—will any of her relationships survive the truth coming out? Moving between modern-day London and revolutionary Iran, *The Mismatch* is a gorgeously written coming-of-age story that follows a young woman as she finds love in a most unexpected place, and a path in life amid two different cultures.

How inclusive methods can build elegant design solutions that work for all. Sometimes designed objects reject their users: a computer mouse that doesn't work for left-handed people, for example, or a touchscreen payment system that only works for people who read English phrases, have 20/20 vision, and use a credit card. Something as simple as color choices can render a product unusable for millions. These mismatches are the building blocks of exclusion. In *Mismatch*, Kat Holmes describes how design can lead to exclusion, and how design can also remedy exclusion. Inclusive design methods--designing objects with rather than for excluded users--can create elegant solutions that work well and benefit all. Holmes tells stories of pioneers of inclusive design, many of whom were drawn to work on inclusion because of their own experiences of exclusion. A gamer and designer who depends on voice recognition shows Holmes his "Wall of Exclusion," which displays dozens of game controllers that

require two hands to operate; an architect shares her firsthand knowledge of how design can fail communities, gleaned from growing up in Detroit's housing projects; an astronomer who began to lose her eyesight adapts a technique called "sonification" so she can "listen" to the stars. Designing for inclusion is not a feel-good sideline. Holmes shows how inclusion can be a source of innovation and growth, especially for digital technologies. It can be a catalyst for creativity and a boost for the bottom line as a customer base expands. And each time we remedy a mismatched interaction, we create an opportunity for more people to contribute to society in meaningful ways.

Sue Hua just moved from racially diverse Seattle to a suburban white-bread town where she feels like the only Asian American for miles. Then she meets Andy, a handsome and passionate violin player who happens to be Asian American. Sue feels an instant attraction to Andy, and her white friends think they 're "made for each other" — after all, they both use chopsticks and eat a lot of rice, right? But there 's just one problem. Andy 's last name is Suzuki. And while that may mean nothing to the other students at Lakeview High, Sue knows that it presents a world of problems to her family.

The inspiration for the Netflix original series *Mismatched!* Everyone is talking about this New York Times bestselling rom-com that Mindy Kaling called “utterly charming!” *Eleanor & Park* meets Bollywood in this hilarious and heartfelt novel about two Indian-American teens whose parents conspire to arrange their marriage. Dimple Shah has it all figured out. With graduation behind her, she’s more than ready for a break from her family, from Mamma’s inexplicable obsession with her finding the “Ideal Indian Husband.” Ugh. Dimple knows they must respect her principles on some level, though. If they truly believed she needed a husband right now, they wouldn’t have paid for her to attend a summer program for aspiring web developers...right? Rishi Patel is a hopeless romantic. So when his parents tell him that his future wife will be attending the same summer program as him—wherein he’ll have to woo her—he’s totally on board. Because as silly as it sounds to most people in his life, Rishi wants to be arranged, believes in the power of tradition, stability, and being a part of something much bigger than himself. The Shahs and Patels didn’t mean to start turning the wheels on this “suggested arrangement” so early in their children’s lives, but when they noticed them both gravitate toward the same summer program, they figured, Why not? Dimple and Rishi may think they have each other figured out. But when opposites clash, love works hard to prove itself in the most unexpected ways.
