Role-play is a fun and creative way to engage with children in EYFS, and is fundamental in developing children's learning and communication skills. This new addition to the 50 Fantastic series is filled with great ways to make the most of play-based learning in your environment. Each activity is linked to children's interests, and is designed to allow the child to learn, create, communicate, and have fun! Many of the scenarios involve an element of problem solving to encourage team work, and the suggested props and locations are both easily sourced and well-suited to Early Years schools and settings. With a whole host of inspirational ideas with photos to match, this book is the perfect starting point for creating an outstanding role-play environment.

Money Counts teaches children to deal with money confidently and responsibly. Financial capability involves more than coin recognition and simple cash calculations. The book explores issues such as credit, debt, interest and giving to charity. This edition is cross-referenced to the National Numeracy Strategy.

The Little Book of Role Play Windows provides a range of fun role play activities, in which scenarios are acted out through a window made using just a cardboard box. Playing with pedal cars can transform into a car park scenario with car park attendant; dressing up play can be extended by creating a fancy dress hire shop; and playing with soft toy animals can lead on to a trip to the vets!

Role-play as a Heritage Practice is the first book to

examine physically performed role-enactments, such as live-action role-play (LARP), tabletop role-playing games (TRPG), and hobbyist historical reenactment (RH), from a combined game studies and heritage studies perspective. Demonstrating that non-digital role-plays, such as TRPG and LARP, share many features with RH, the book contends that all three may be considered as heritage practices. Studying these role-plays as three distinct genres of playful, participatory and performative forms of engagement with cultural heritage, Mochocki demonstrates how an exploration of the affordances of each genre can be valuable. Showing that a player's engagement with history or heritage material is always multi-layered, the book clarifies that the layers may be conceptualised simultaneously as types of heritage authenticity and as types of in-game immersion. It is also made clear that RH, TRPG and LARP share commonalities with a multitude of other media, including video games, historical fiction and film. Existing within, and contributing to, the fiction and non-fiction mediasphere, these role-enactments are shaped by the same large-scale narratives and discourses that persons, families, communities, and nations use to build memory and identity. Role-play as a Heritage Practice will be of great interest to academics and students engaged in the study of heritage, memory, nostalgia, role-playing, historical games, performance, fans and transmedia narratology.
