There are seven celestial objects visible to the naked eye, seven notes to the diatonic scale, and seven days in a week. And for travelers there are Seven Continents, Seven Seas, and Seven Wonders.

Natural disasters? The deaths of friends? Or even go back in time and say the right thing to the girl who haunts his dreams? His actions can either save the world or destroy it. And now the man who could turn back the clock is running out of time.

Leadbeater, and Albert Einstein □ Explains how transcending the physical body offers new hope for the treatment of illness, emotional problems, and addictions □ Offers step-by-step instructions and exercises to develop your time travel abilities via the energy body Time remains the most misunderstood and mystical dimension of our experience of life. We never seem to have enough time, yet often it seems to drag by too slowly. Enthralled with the possibility of time travel and time machines, we long for the future or regret our past and wish for a way to break out of the linear progression of time. Behind all of this time fascination and obsession is the human urge to manage our destiny and

feel in control of our world. Yet the secret to escaping temporal bondage is inside each of us, a soul-given power to visit the past or future and travel through the present at the speed of light. Exploring the 7 secrets of time, Von Braschler reveals how to break free from the physical world and travel through time and space via the energy body. He examines time, timelessness, and time travel from the viewpoint of mystics, shamanic dreamwalkers, and scientists, including Helena Blavatsky, C. W. Leadbeater, Albert Einstein, and Julian Barbour, as well as Hindu spiritual science. Explaining how transcending the physical body offers new hope for the treatment of illness, emotional problems, and addictions, he offers step-by-step instructions and active, out-of-body exercises to develop your time travel abilities and explore the world of energy and spirit. Emphasizing the spiritual wholeness that comes from energy body work, he shows that by visiting the past and the future we can more fully live in the now.

Here is what parents have to say about the Seven Amazing Continents Journal: "This, like most of The Thinking Tree books is a researched based book which requires you provide internet or other books to be able to fill out the worksheets in this book. I bought this book for our homeschool history/geography studies for the next school year. What I like about this book is that not only are you doing book research you are coloring, challenging the student to answer questions about the continents, and finding the beauty of the world. This book can be shared with our 4 homeschoolers which means we save money..." (read more about it at the end of the review). "It is very thorough and can be used with one student over an extended amount of time. Or it can be used in a group of students, especially with teaching multi-level homeschooling by dividing the pages between your various children and watching the movies, sharing books, etc. This book was created so that you can make multiple copies for only the children in your household which is a win-win if you're wanting to save money and do this all together."
