educator Henry Sayre teaches students how to ask the right questions about the visual world that surrounds us, and to then respond meaningfully to the complexity of that world. New to the eighth edition, seven thematic chapters help students better identify and understand major themes of art--such as "the cycle of life" and "the body, gender, and identity"--that transcend different eras and regions. Also available with MyArtsLab® MyArtsLab for the Art Appreciation course extends learning online to engage students and improve results. Media resources with assignments bring concepts to life, and offer students opportunities to practice applying what they've learned. Please note: this version of MyArtsLab does not include an eText. A World of Art, Eighth Edition is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn.

Why A World of Art? Henry Sayre wrote the first edition of World of Art because he wanted to use a text in his own art appreciation course that truly represented all artists, not just the Western canon found at that time in the other texts. He also wanted a text that fostered critical thinking through looking at, talking about, and

Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present, every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronological, regional and individual styles of artistic expression.

This best-selling exploration of traditional and contemporary art and

artistic media focuses on art as seen from the artist's point of view, treating artistic techniques and introductory aesthetic principles. It is an engaging, clear, and concise presentation with a multi-cultural emphasis. The careful design of the illustrations, text, headings, timelines, and boxes enhances the relationship between text and illustrations. The book has a four-part organization--Part I lays the foundation for seeing; Parts II and III views two-and three-dimensional art; and Part IV approaches art as it exists in time. Topics cover a broad range of media and traditional and contemporary art, including installation; video and performance art; encaustic; fresco; wood engraving; earthworks; computers and art.

The Art of Editing continues to be the standard by which editing texts are judged, offering the most comprehensive and up-to-date discussion of editing available. Long viewed as the "classic" in the field of editing, The Art of Editing continues to evolve to meet the needs of today's students. In addition to a focus on traditional newspaper editing, the authors pay significant attention to the other areas in which students are increasingly finding jobs: online media, corporate magazines, broadcasting, public relations and advertising. The ninth edition of The Art of Editing details the major changes

revolutionizing the media industry and prepares students to work in convergent environments, where skill in print, broadcast and online operations is essential.

The World Today is the number one bestselling brief World Regional Geography textbook. The seventh edition continues to bring readers geographic perspectives on a fast-changing world through the regional view. Restructured chapters provide a macro review of important physical, cultural, and political characteristics, drawing upon up-to-date significant world events and crises. The cartographically superior maps have been updated for the seventh edition to offer an accurate and vast picture of the world--multi-layer, interactive, GIA maps have been added to WileyPLUS Learning Space. To complement the extensive map program, the majority of the photos have been taken by our authors during their field research, allowing the student to experience an authentic geographical viewpoint of our world.
