Perched at the tip of Europe, gazing across to the shores of Asia, Istanbul remains as much a city of crossroads as it has been for the past two millennia. The history of this fabled metropolis--known at first as Byzantium, then Constantinople, and now Istanbul--is glorious, grandiose, and astounding. No other city has stood at the center of world events for so long, a home to great empires and diverse cultures from the Greeks to the Romans, the Italians to the Armenians, the Ottomans to the modern Turks. Prizewinning historian Thomas F. Madden's tremendous new biography of this mysterious city captures centuries of triumph and defeat, riches and poverty, seen through the lives of those who inhabited it: the emperors and empresses, craftsmen and architects, sailors and fishermen, street vendors and harem concubines. This book propels the reader on a journey of Mediterranean commerce, thought, religion, and power, running through ancient roads, wharfs, forums, and palaces. Excavating centuries of firsthand accounts, Madden sets this history against the background of men and women who forever changed their worlds, including Alexander the Great, Constantine, Empress Theodora, Mehmed the Conqueror, Suleiman the Magnificent, and Mustafa Kemal Atatürk. Witness the construction of the massive Theodosian Walls, the embellishment of rich Hagia Sophia, and the transformation and

revitalization of the Golden Horn district. From 667 BC to President Erdoğan's tumultuous twenty-first century presidency, Madden's account not only questions how we think of Istanbul's past, but also examines what we can learn from a people who have withstood invasion and threat time and time again. Through the long gaze of Madden's stirring narrative, we experience the strength of a people who endure at the intersection of faith, geography, and ideology.--Adapted from dust jacket.

This book highlights the unique history and cultural context of retranslation in Turkey, offering readers a survey of the diverse range of fields, disciplines, and genres in which retranslation has assumed a central position. Further, it addresses largely unexplored issues such as retranslation in Ottoman literature, paratextual positioning and marketing of retranslations, legal retranslation, and retranslation in music. As such, it makes a valuable contribution to the growing body of research on retranslation by placing special emphasis on non-literary translation, making the role of retranslation particularly visible in connection with politics and philosophy in Turkey.

Essays covering a broad range of genres and ranging from the late Ottoman era to contemporary literature open the debate on the place of Turkish literature in the globalized literary world. Explorations of the multilingual cosmopolitanism of the Ottoman literary scene are complemented by examples of cross-generational intertextual encounters. The renowned poet Nazım Hikmet is studied from a variety of angles, while contemporary and popular writers such as Orhan Pamuk and Elif Şafak are contextualized. Turkish Literature as World Literature not only fills a significant lacuna in world literary studies but also draws a composite historical, political, and cultural portrait of Turkey in its relations with the broader world.

The Routledge Handbook of Translation and the City is the first multifaceted and cross-disciplinary overview of how cities can be read through the lens of translation and how translation studies can be enriched by an understanding of the complex dynamics of the city. Divided into four sections, the chapters are authored by leading scholars in translation studies, sociolinguistics, and literary and cultural criticism. They cover contexts from Brussels to Singapore and Melbourne to Cairo and topics from translation as resistance to translanguaging and urban design. This volume explores the role of translation at critical junctures of a city 's historical transformation as well as in the mundane intercultural moments of urban life, and uncovers the trope of the translational city in writing. This Handbook is critical reading for researchers, scholars and advanced students in translation studies, linguistics and urban studies.

In 1852, young Walt Whitman—a down-on-his-luck housebuilder in Brooklyn—was hard at work writing two books. One would become one of the most famous volumes of poetry in American history, a free-verse revelation beloved the world over, *Leaves of Grass*. The other, a novel, would be published under a pseudonym and serialized in a newspaper. A short, rollicking story of orphanhood, avarice, and adventure in New York City, *Life and Adventures of Jack Engle* appeared to little fanfare. Then it disappeared. No one laid eyes on it until 2016, when literary scholar Zachary Turpin, University of Houston, followed a paper trail deep into the Library of Congress, where the sole surviving copy of *Jack Engle* has lain waiting for generations. Now, after more than 160 years, the University of Iowa Press is honored to reprint this lost work, restoring a missing piece of American literature by one of the world 's greatest authors, written as he verged on immortality.

the German threat at the approach of the First World War. The Prime Minister himself requests Holmes's services to hunt down the remarkable German agent, Von Bork. Several of the detective's earlier cases complete the volume, including 'Wisteria Lodge', 'The Bruce-Partington Plans', and 'The Disappearance of Lady Frances Carfax'. In 'The Dying Detective', Dr Watson is horrified to discover Holmes at death's door from a mysterious tropical disease as his friend lays a trap for a murderer. Includes a biography of the author.

The book, two text editions with translations, offers a lively picture of the Ottoman world in the early 1900s as witnessed by the German orientalist Karl S ü ssheim and the Young Turk officer sma ' il Hakk ı Bey.
