doesn't challenge you to come up with your own settings or figure things out on your own. Instead, it does something that virtually no other Elements book has ever done—it tells you flat-out which settings to use, when to use them, and why. If you're looking for one of those “tell-me-everything-about-the-Unsharp-Mask-filter” books, this isn't it. You can grab any other Elements book on the shelf, because they all do that. Instead, this book gives you the inside tips and tricks of the trade for organizing, correcting, editing, sharpening, retouching, and printing your photos like a pro. You'll be absolutely amazed at how easy and effective these techniques are—once you know the secrets.

LEARN HOW THE PROS DO IT Each year we train thousands of digital photographers and, almost without exception, they have the same questions and face the same problem—that's exactly what we cover in this book. You'll learn: The real secrets of how the pros retouch portraits How to color correct any photo with out breaking a sweat (you'll be amazed at how they do it!) How to use Camera Raw for processing not only RAW photos, but JPEGs and TIFFs, too! (And you'll learn why so many pros like it best—because it's faster and easier) The sharpening techniques the pros really use (there's an entire chapter just on this!) How to deal with common digital camera image problems, including removing noise and avoiding halos The most requested photographic special effects, and much more! THE BOOK'S

SECRET WEAPON Although Elements 9 offers some digital photography features that Photoshop CS5 doesn't offer, there are plenty of features that Photoshop CS5 has that Elements 9 still doesn't have (things like paths, Channel Mixer, etc.). But in this book, you'll learn some slick workarounds, cheats, and some fairly ingenious ways to replicate many of those Photoshop features from right within Elements. Plus, since this book is designed for photographers, it doesn't waste your time talking about how to frame a shot, set your exposure, etc., and there's no talk about which camera or printer to buy. It's all Elements, step-by-step, cover-to-cover, in the only book of its kind!

After more than two years, Adobe has finally released a new version of Photoshop Elements for the Mac. Version 6 packs a lot more editing firepower than iPhoto, and this Missing Manual puts every feature into a clear, easy-to-understand context -- something that no other book on Elements does! Photoshop Elements 6 is perfect for scrapbooking, making fancy photo collages, and creating Web galleries. It has lots of new features such as Guided Edit for performing basic editing tasks, an improved Photomerge feature, a handy Quick Selection Tool, and much more. But knowing what to do and when is tricky. Photoshop Elements 6 for Mac: The Missing Manual explains not only how the tools
