Drew Michalik was working in a top-secret facility in Washington, D.C. when the Advent began. As all electronics in the world simply ceased to work, blue screens filled with information appeared before him. Drew was given access to a mana interface and a limited number of reality-altering crystals called Xatherite. Following the instructions on his vision-impairing screens, he 'slotted' his Xatherite and changed his fate: he gained the ability to cast spells. Now alone in the dark, he must battle through the government bunker-turned-dungeon in a desperate bid for survival. Escape is only the beginning, the first of his many problems in the changed world. Drew will be tasked to not only survive... but to guide the rest of humanity safely through the anarchy.

A haven for humanity. Factions forming and fracturing. The seeds of a new empire. Drew and his team are racing to create a system-recognized 'Habitat'. To make this happen, they must conquer more nodes, deal with an antagonistic superior officer, and possibly worst of all: their own fear. Freeing the troll's sacrificial captives was

Drew and his allies will struggle to survive in the changed world after the Advent as fate works to temper them.

There was a time when magic was welcome in the country of Chahir, but that was nearly two centuries ago. Now, all forms of magic are strictly forbidden. Anyone caught using magic, or possessing magical abilities, are immediately imprisoned and executed. For Garth, that policy is a problem. As Garth approaches his sixteenth birthday, he realizes that he definitely has magical abilities. What's worse, he has no control over them. In order to stay alive, he only has one choice—he must leave his homeland, Chahir, and flee into the neighboring country, Hain. The journey isn't an easy one; he still has to make it out of Chahir without alerting anyone as to his abilities. What Garth doesn't know is that getting to Hain, and the Academy for All Magic, is going to be the easy part. Garth goes into Hain for one reason only; he wants training for his out-of-control magical powers. So how does he become a member of an exclusive magical clan known as the Jaunten; adopted by a magically enhanced

She'll need to navigate court politics and foreign policy if she wants to come out in one piece.
