This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to ensure edition identification: ++++ A History Of French Literature; Short Histories Of The Literatures Of The World Edward Dowden Heinemann, 1897 Literary Criticism; European; French; French literature; Literary Criticism / European / French

The Cambridge History of the Graphic Novel provides the complete history of the graphic novel from its origins in the nineteenth century to its rise and startling success in the twentieth and twenty-first century. It includes original discussion on the current state of the graphic novel and analyzes how American, European, Middle Eastern, and Japanese renditions have shaped the field. Thirty-five leading scholars and historians unpack both forgotten trajectories as well as the famous key episodes, and explain how comics transitioned from being marketed as children's entertainment. Essays address the masters of the form, including Art Spiegelman, Alan Moore, and Marjane Satrapi, and reflect on their publishing history as well as their social and political effects. This ambitious history offers an extensive, detailed and expansive scholarly account of the graphic novel, and will be a key resource for scholars and students.

Taking its title from one of Wallace Wood's all-time classics, the evil little paranoid thriller "Came the Dawn," this collection features page after page after page of Wood's sleek and meticulously crafted artwork put in the service of cunning twist-ending stories, most often from the typewriter of EC editor Al Feldstein. These tales range from supernatural shockers from the pages of Tales From the Cryptand The Haunt of Fear ("The Living Corpse," "Terror Ride," "Man From the Grave," "Horror in the Freak Tent") to often pointedly contemporary crime thrillers from Crime SuspenStories ("The Assault," "The Whipping," and "Confession," which was singled out for specific excoriation in the anti-comics screed Seduction of the Innocent, thus giving it a special cachet), but the breathtaking art and whiplash-inducing shock endings are constants throughout.

EC reprint series kicks off with war-story masterpieces from the legendary Harvey Kurtzman. The creation of MAD would have been enough to cement Harvey Kurtzman's reputation as one of the titans of American comics, but Kurtzman also created two other comics landmarks: the scrupulously-researched and superbly-crafted war comics Two-Pisted Tales and Frontline Combat. Here were finally war comics without heroic, cigar-chomping sergeants, wisecracking privates from Brooklyn, or cartoon Nazis and "Japs" to be mowed down by the Yank heroes, but an unflinching look at the horror and madness of combat throughout history.

What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre "Material Text Cultures," (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume's focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

Literary superstar. Revolutionary. Serial philanderer. Alexandre Dumas lived an extraordinary life. Who better to tell his story than the man himself? In this first volume of his memoirs, Dumas recounts his early life, from his first memories through to his teenage years. We learn about his time as a small-town poacher and then a clerk in Paris. Along the way, he paints a vivid picture of contemporary France, weaving in stories of famous figures, duels and romances. "My Memoirs. Volume I" is written with the same verve as Dumas' best novels. So whether you're a history buff or a fan of "The Three Musketeers", there's plenty to enjoy here. Alexandre Dumas (1802-1870) was a hugely popular 19th century French writer. Born of mixed French and Haitian heritage, Dumas first rose to prominence in Paris as a playwright, but later gained international fame with his historical fiction. Often co-authored with other writers, these stories wove together swashbuckling adventure, romance, and real events from France's past. Among the best known are "The Three Musketeers", and its sequels "Twenty Years After", and "Le Vicomte de Bragelonne: Ten Years Later". Set across four decades, this trilogy follows the rise of the dashing D'Artagnan—from hot-headed soldier to trusted captain under Louis XIV. Dumas' other novels include "The Count of Monte Cristo" and "The Black Tulip". His works have been adapted into more than 200 movies, including The Man in the Iron Mask starring Leonardo DiCaprio.

A deadly plague has devastated Earth, killing all the adults. Lisa and her younger brother Todd are struggling to stay alive in a world where no one is safe. Other children along Grand Avenue need help as well. They band together to find food, shelter, and protection from dangerous gangs invading their neighborhood. When Tom Logan and his army start making threats, Lisa comes up with a plan and leads her group to a safer place. But how far is she willing to go to protect what's hers?

Wanting to popularize Spiritism and make spreading it easier and quicker, but without prejudicing the basic works of the Spiritist Doctrine, Allan Kardec wrote a number of booklets and distributed them throughout France at prices that were affordable for anyone who might be interested. Some of them had several printings and were highly successful. They continued to be republished even after the Codifier's discarnation. This is one of those booklets. It is hoped that Spiritist readers will find that this unpretentious work enriches their knowledge of the Spiritist Doctrine.

A satirical spy adventure set in an Asterix-style anachronistic Cesar epoch fantasy Rome featuring both billboards and vampires. Restored and recoloured digitally, the book will also feature a analytical/contextual essay by the French art and comics critic, Pierre Sterckx discussing the work and its historical context as well as unseen archival art reproductions, sketches and photographs.
