Download [PDF] African Religions Philosophy eBook
While he was here he wrote his first book, 'African Religions and Philosophy' (1969). His primary focus in his first book was to challenge the widely held views that African traditional religions were rooted in demonic anti-Christian values and to stress that traditional African religions deserve the same respect as Christianity, Islam, Judaism, and Buddhism.

African theology revisited John S. Pobee
About the author (1969) John Mbiti was born in Kitui, Kenya, and received his education in Africa and abroad. Trained as an Anglican priest, he went on to be both professor and parish minister in Switzerland, where he later settled. As a philosopher and Christian theologian, Mbiti became one of the early African authorities on African religions. Using his philosophical skills, he focuses on deriving a representation of a coherent philosophical worldview from the indigenous traditions.

"African Religions and Philosophy" is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa. In this second edition, Dr Mbiti has updated his material to include the involvement of women in religion, and the potential unity to be found in what was once thought to be a mass of quite separate religions. Mbiti adds a new dimension to the understanding of the history, thinking, and life throughout the African continent. Religion is approached from an African point of view but is as accessible to readers who belong to non-African societies as it is to those who have grown up in African nations. Since its first publication, this book has become acknowledged as the standard work in the field of study, and it is essential reading for anyone concerned with African religion, history, philosophy, anthropology or general African studies.

African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa.

In his widely acclaimed survey, John Mbiti sheds light on the survival and prosperity of African Religion in different historical, geographical, sociological, cultural, and physical environments. He presents a constellation of African worldviews, beliefs in God, use of symbols, valued traditions, and practices that have taken root with African peoples throughout the vast continent. Mbiti 's accessible writing style sympathetically portrays how African Religion manifests itself in ritual, festival, healing, the human life cycle, and interplay with the mystical and invisible world. The account embraces foundational traditions, while touching on elements that spawn transitions, including migration, the spread of Christianity and Islam, political-economic development, and modern communication. This popular introduction leaves readers with informed knowledge of the riches of African heritage.

This popular introduction has been revised and updated to include a section on African proverbs, new photographs, and a fully expanded reading list.

In African Theology, Philosophy, and Religions: Celebrating John Samuel Mbiti 's Contribution, contributors explore John Samuel Mbiti 's contributions to African scholarship and demonstrate how he broke through the western glass ceiling of scholarship and made African-informed and African-shaped scholarship a reality. Contributors examine the far-reaching implications of Mbiti 's scholarship, arguing that he shifted the contemporary African Christian landscape and informed global expressions of Christianity. African Theology, Philosophy, and Religions analyzes Mbiti 's scholarship and shows that his theories are malleable and fluid, allowing a new generation of scholars to reinterpret, reconstruct, and further develop his theories. This collection brings together contributors from a wide range of disciplines to study John Samuel Mbiti as the father of contemporary African theology and grapple with questions Africans face in the twenty-first century.

This book connects traditional religions to the thriving religious activity in Africa today.

The series Religion and Society (RS) contributes to the exploration of religions as social systems – both in Western and non-Western societies; in particular, it examines religions in their differentiation from, and intersection with, other cultural systems, such as art, economy, law and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination, constructions of tradition, iconography, or media. In addition, the formation of religious communities, their construction of identity, and their relation to society and the wider public are key issues of this series.

" In the fall, I went for walks and brought home bones. The best bones weren 't on trails—deer and moose don 't die conveniently—and soon I was wandering so far into the woods that I needed a map and compass to find my way home. When winter came and snow blew into the mountains, burying the bones, I continued to spend my days and often my nights in the woods. I vaguely understood that I was doing this because I could no longer think; I found relief in walking up hills. When the night temperatures dropped below zero, I felt visited by necessity, a baseline purpose, and I walked for miles, my only objective to remain upright, keep moving, preserve warmth. When I was lost, I told myself stories. . . ." So Charles D 'Ambrosio recounted his life in Philipsburg, Montana, the genesis of the brilliant stories collected here, six of which originally appeared in The New Yorker. Each of these eight burnished, terrifying, masterfully crafted stories is set against a landscape that is both deeply American and unmistakably universal. A son confronts his father 's madness and his own hunger for connection on a misguided hike in the Pacific Northwest. A screenwriter fights for his sanity in the bleak corridors of a Manhattan psych ward while lusting after a ballerina who sets herself ablaze. A Thanksgiving hunting trip in Northern Michigan becomes the scene of a haunting reckoning with marital infidelity and desperation. And in the magnificent title story, carpenters building sets for a porn movie drift dreamily beneath a surface of sexual tension toward a racial violence they will never fully comprehend. Taking place in remote cabins, asylums, Indian reservations, the backloads of Iowa and the streets of Seattle, this collection of stories, as muscular and challenging as the best novels, is about people who have been orphaned, who have lost connection, and who have exhausted the ability to generate meaning in their lives. Yet in the midst of lacerating difficulty, the sensibility at work in these fictions boldly insists on the enduring power of love. D 'Ambrosio conjures a world that is fearfully inhospitable, darkly humorous, and touched by glory; here are characters, tested by every kind of failure, who struggle to remain human, whose lives have been sharpened rather than numbed by adversity, whose apprehension of truth and beauty has been deepened rather than defeated by their troubles. Many writers speak of the abyss. Charles D 'Ambrosio writes as if he is inside of it, gazing upward, and the gaze itself is redemptive, a great yearning ache, poignant and wondrous, equal parts grit and grace. A must read for everyone who cares about literary writing. The Dead Fish Museum belongs on the same shelf with the best American short fiction.
