A Taino Indian boy on the island of San Salvador recounts the landing of Columbus and his men in 1492.

An NCSS Notable Social Studies Trade Book for Young People Christopher Columbus is one of the most famous people in world history, yet few know the full story of the amazing, resourceful, and tragic Italian explorer. Christopher Columbus and the Age of Exploration for Kids portrays the "Admiral of the Ocean Seas" neither as hero nor heel but as a flawed and complex man whose significance is undeniably monumental. Kids will gain a fuller picture of the seafarer's life, his impact, and the dangers and thrills of exploration as they learn about all four of Columbus's voyages to the New World, not just his first, as well as the year that Columbus spent stranded on the island of Jamaica without hope of rescue. Students, parents, and teachers will appreciate the in-depth discussions of the indigenous peoples of the New World and of the consequences of Columbus's voyages—the exchange of diseases, ideas, crops, and populations between the New World and the Old. Fun hands-on activities illuminate both the nautical concepts introduced and the times in which Columbus lived. Kids can: Tie nautical knots Conduct a blanket (silent) trade Make a compass Simulate a hurricane Take nautical measurements And much more

With the help of text based on primary sources, full-color artwork, custom maps, and time lines, a detailed account of the charting of the New World outlines the causes and consequences of this defining age of exploration.

Examines the adventures of such early explorers of America as Columbus, Dias, and Cabot. Includes information on the events, society, and superstitions of the times.

Based on the highly successful A History of Western Society, Understanding Western Society: A Brief History captures students' interest in the everyday life of the past and ties social history to the broad sweep of politics and culture. Abridged by 30%, the narrative is paired with innovative pedagogy, designed to help students focus on significant developments as they read and review. An innovative, three-step end-of-Chapter study guide helps students master key facts and move toward synthesis.

realistic illustrations depict Vikings in Vinland, Columbus's ship Ni ñ a, Ponce de Le ó n in Florida, others. Captions.

Reproducible student activities cover early Native American settlements, African and western European influences, and Spanish and Portugese exploration.

This clear, succinct, and elegant contribution to the 'Very Short Introductions' series surveys the history of global exploration and assesses the motives, for good and ill, of those who undertook it. Stewart Weaver traces the history of exploration from the first explorers (including Polynesian and Micronesian peoples, the ancient Greeks, Marco Polo, and Ibn Batt Ð ta), to the European discover of America, the Enlightenment and exploration (focusing on James Cook), and the race to the north and south poles

A tribute to Henry Hudson's discovery of the river that bears his name recounts how the historical explorer defied commission orders to find an eastern passage to China by redirecting his voyage along the coastline from Spanish Florida to the Grand Banks, an effort that laid a foundation for New York's establishment as a global capital.
