"There are fifteen major breakthroughs in technical analysis! SEVEN of these breakthroughs are new, never-before-revealed material!" - George Lane, Stochastics Originator. As professional traders approach the 21st century, accelerating technological change threatens to make conventional technical studies and indicators ineffective. To compete in this changing environment, these professionals need radical new uses and combinations of indicators and formulas to keep their competitive edge. Not a primer for the novice, TECHNICAL ANALYSIS FOR THE TRADING PROFESSIONAL resets the scales, arming today's professional trader with new, unique, and never-before-seen formulas and uses of key market indicators and techniques.

"This volume contains a sizable suite of contributions dealing with regional impact records (Australia, Sweden), impact craters and impactites, early Archean impacts and geophysical characteristics of impact structures, shock metamorphic investigations, post-impact hydrothermalism, and structural geology and morphometry of impact structures - on Earth and Mars"--
