She ' s given a five percent chance of survival and one percent chance of walking again. One month later after a spinal fusion surgery, Ruthie defies the odds, leaving the hospital on her own two feet. Just a few years later, newly married and living in Nashville, Ruthie begins to experience debilitating pain. Her case confounds doctors and after numerous rounds of testing, imaging, and treatment, they prescribe narcotic painkillers—lots of them. Ruthie has become bedridden, dependent on painkillers, and hopeless, when an X-ray reveals that the wire used to fuse her spine is piercing her brain stem. Without another staggeringly expensive experimental surgery, she could well become paralyzed, but in many ways, she already is. Ruthie goes into the hospital in chronic pain, dependent on prescription painkillers, and leaves the same way. She can still walk but has no idea where she ' s going. As her life unravels, Ruthie returns home to Louisiana and sets out on a journey to learn joy again. She trades fentanyl for sunsets and morphine for wildflowers, weaning herself off of the drugs and beginning the process of healing—of coming home to her body. Raw and redemptive, *There I Am* is not just about the magic of optimism, but the work of it. Ruthie ' s extraordinary memoir “ like going on a walk with a best friend and listening to a life-changing speech at the same time: it ' s equal parts familiar and profound, warm and insightful, comforting and challenging, relatable and unlike anything you ' ve read before ” (Mari Andrew, New York Times bestselling author).

Despite seeming endless debate and public attention given to the issue for several decades, those committed to creating welcoming and engaging campus environments for all students recognize that there is considerably more work to be done, and ask “ Why aren ' t we there yet, and when will we be done? ” While our campuses have evolved from being exclusionary and intolerant, and publicly espouse the objectives of being welcoming, accepting, affirming, and engaging, the data on admissions, retention, and graduation clearly indicate that these goals have not been achieved. The contributors to this book seek to offer new insights to improve student affairs, emphasizing action that recognizes this is a complex and multi-faceted process, and beginning with the assertion that, without recognizing the influences of privilege and inequality, we educators cannot promote truly welcoming environments. This book focuses on guiding individuals and groups through learning how to have difficult conversations that lead us to act to create more just campuses, and provides illustrations of multiple ways to respond to difficult situations. It advocates for engaging in fruitful dialogues regarding differing social identities including race, ethnicity, religion, gender, and sexual orientation, to lead readers through a process that advocates for justice, and for taking personal responsibility for contributing to the solution. The book is framed around the five elements of the process of engaging in difficult conversations that not only advocate for change but also create change: self knowledge, knowledge of and experiences with others, understanding historical and institutional contexts, understanding how to change the status quo, and transformative action.

A wry, tender novel of sexual and intellectual awakening. Something made her risk a look at the reader, who took a sip of black coffee. And another. She turned the pages. She pursed her lips. Flannery abandoned her breakfast and watched the woman drink her coffee. It wasn't that she wanted the coffee herself. That wasn't it. Rather, she wanted to be the coffee: she envied the dark drink its chance to taste those lips. In a steam-filled diner in a college town, Flannery Jansen catches sight of something more beautiful than she's ever seen: a

Whatever the subject -- Baudelaire, lipstick colors -- Flannery proves an eager pupil, until one day she learns more about Anne than she ever wanted to know.
