## WOMEN IN AMERICAN POLITICS: AN INTRODUCTION

introduces provides both an introduction to women in politics and to American government in such a way that students unfamiliar with the structure and the processes of American government can gain enough familiarity to enable them to analyze women's role in American politics. The text includes the impact of many public policy issues on women.

This exciting new book explores the role of government, politics, and policy in American lives. Full of real life applications and scenarios, this text encourages and enables political thinking. The second edition has been updated to include recent developments in U.S. politics and government. This includes the description and analysis of the 2016 elections as well as the early Trump administration. Chapters have expanded coverage of immigration policy, environmental policy, economic policy, and global affairs (including counterterrorism policy). The text also includes analysis of racial issues in contemporary American politics and law. It also addresses questions about the state of the economy, jobs, and wages. Hyperlinks and URLs provide "deeper

dives" into various topics and examples of comparative politics.

How can political science help you understand the world you live in? Modern approaches to the study of politics analyze why Congress, the president, the courts, and other political actors do what they do. Learning to think critically about power, institutions, and rules helps citizens engage constructively in politics and the wider world around them and helps us systematically identify false claims, biases, and misconceptions. Analyzing American Democracy teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as both an introduction to American politics and to the discipline of political science by reflecting the theoretical developments and empirical inquiry conducted by researchers. Every chapter highlights the most current research and discusses related public policy. It demonstrates for students how to think critically and analytically, bringing theoretical insight to contemporary American politics. More than just a comprehensive overview and description of how American politics works, Jon Bond and Kevin Smith demonstrate how politics can be studied systematically. Throughout the text, they introduce students to the insights gleaned from rational choice, behavioral, and biological approaches to politics. Understanding these three social scientific models and their applications helps students get the most out of their American government course and out of this text--they learn a way of thinking that they can use to make sense of future challenges facing the American polity. A number of features help aid comprehension and critical thinking: Key Questions at the start of every chapter frame the learning objectives and concepts "Thinking Analytically" boxes demonstrate how political scientists answer pressing questions about the American polity and model critical thinking "Applying the Frameworks" boxes show why theory is so important in making systematic sense of the political world "New Directions" boxes will highlight cutting edge research in political science to highlight some of the big contemporary questions the book

# Read Free American Democracy Now 2nd Edition

addresses Tables, Figures, Charts, and Maps throughout present the empirical details of American politics, helping students gain quantitative literacy Top Ten Takeaway Points at the end of every chapter recap the most important points covered but also help students discern the general principles that make sense of the numerous factual details Key Terms are bolded in the text, defined in the margins, recapped at the end of the chapter, and compiled in a glossary, all to help insure that students can effortlessly master the vocabulary of American politics and political science in order to move on to the more important concepts. **NEW TO THE SECOND EDITION** Updated coverage throughout includes Affordable Care Act in the context of federalism Death penalty debates Affirmative action Racism, homophobia, and hate crimes in the wake of Ferguson Weakening of the Voting Rights Act Gay marriage history and new developments Tea Party and traditional party interface Campaign finance upheaval The changing Congressional landscape and increasing political polarization Updated tables, figures, and photos present the empirical details of American politics, helping students gain quantitative literacy Landmark court cases, now highlighted and linked to key concepts Refreshed feature boxes reinforce the book 's dedication to helping students understand the scientific approach to politics, incorporating intriguing new topics including genetics and public opinion, the biology of political participation, and evolution and the bureaucracy

Amy Goodman and her colleague Denis Moynihan began writing a weekly column, 'Breaking the Sound Barrier', for King Features Syndicate in 2006. Following the success of Goodman's book of the same name, *The Silenced Majority* gives voice to the many ordinary people standing up to corporate and government power - and refusing to be silent. This fascinating collection pulls back the veil of corporate media reporting to dig deep into political issues facing readers today.

From the New York Times bestselling author of *White Rage*, an unflinching, critical new look at the Second Amendment--and how it

## Read Free American Democracy Now 2nd Edition

has been engineered to deny the rights of African Americans since its inception. In *The Second*, historian and award-winning, bestselling author of *White Rage* Carol Anderson powerfully illuminates the history and impact of the Second Amendment, how it was designed, and how it has consistently been constructed to keep African Americans powerless and vulnerable. *The Second* is neither a “ pro-gun ” nor an “ anti-gun ” book; the lens is the citizenship rights and human rights of African Americans. From the seventeenth century, when it was encoded into law that the enslaved could not own, carry, or use a firearm whatsoever, until today, with measures to expand and curtail gun ownership aimed disproportionately at the African American population, the right to bear arms has been consistently used as a weapon to keep African Americans powerless--revealing that armed or unarmed, Blackness, it would seem, is the threat that must be neutralized and punished. Throughout American history to the twenty-first century, regardless of the laws, court decisions, and changing political environment, the Second has consistently meant this: That the second a Black person exercises this right, the second they pick up a gun to protect themselves (or the second that they don't), their life--as surely as Philando Castile's, Tamir Rice's, Alton Sterling's--may be snatched away in that single, fatal second. Through compelling historical narrative merging into the unfolding events of today, Anderson's penetrating investigation shows that the Second Amendment is not about guns but about anti-Blackness, shedding shocking new light on another dimension of racism in America.

American Government 2e is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them.

NEW YORK TIMES BESTSELLER • “ Comprehensive, enlightening, and terrifyingly timely. ” —The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste

Donald Trump ’ s presidency has raised a question that many of us never thought we ’ d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die*

“ What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that. ” —The Washington Post

“ Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics. ” —Ezra Klein, Vox

“ If you only read one book for the rest of the year, read *How Democracies Die*. . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best

# Read Free American Democracy Now 2nd Edition

commentary on our politics, no contest. ” —Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “ A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal. ” —Fareed Zakaria, CNN

5.4 million Americans--1 in every 40 voting age adults-- are denied the right to participate in democratic elections because of a past or current felony conviction. In several American states, 1 in 4 black men cannot vote due to a felony conviction. In a country that prides itself on universal suffrage, how did the United States come to deny a voice to such a large percentage of its citizenry? What are the consequences of large-scale disenfranchisement--both for election outcomes, and for public policy more generally? *Locked Out* exposes one of the most important, yet little known, threats to the health of American democracy today. It reveals the centrality of racial factors in the origins of these laws, and their impact on politics today. Marshalling the first real empirical evidence on the issue to make a case for reform, the authors' path-breaking analysis will inform all future policy and political debates on the laws governing the political rights of criminals.

**NEW YORK TIMES BESTSELLER** • A leading political scientist examines the dramatic rise in violent extremism around the globe and sounds the alarm on the increasing likelihood of a second civil war in the United States “ Like those who spoke up clearly about the dangers of global warming decades ago, Walter delivers a grave message that we ignore at our peril. ” —David Remnick, *The New Yorker* Political violence rips apart several towns in southwest Texas. A far-right militia plots to kidnap the governor of Michigan and try her for treason. An armed mob of Trump supporters and conspiracy theorists storms the U.S. Capitol. Are these isolated incidents? Or is this the start of something bigger? Barbara F. Walter has spent her career studying civil conflict in places like Iraq, Ukraine, and Sri Lanka, but now she has become increasingly worried about her own country. Perhaps

# Read Free American Democracy Now 2nd Edition

surprisingly, both autocracies and healthy democracies are largely immune from civil war; it ' s the countries in the middle ground that are most vulnerable. And this is where more and more countries, including the United States, are finding themselves today. Over the last two decades, the number of active civil wars around the world has almost doubled. Walter reveals the warning signs—where wars tend to start, who initiates them, what triggers them—and why some countries tip over into conflict while others remain stable. Drawing on the latest international research and lessons from over twenty countries, Walter identifies the crucial risk factors, from democratic backsliding to factionalization and the politics of resentment. A civil war today won ' t look like America in the 1860s, Russia in the 1920s, or Spain in the 1930s. It will begin with sporadic acts of violence and terror, accelerated by social media. It will sneak up on us and leave us wondering how we could have been so blind. In this urgent and insightful book, Walter redefines civil war for a new age, providing the framework we need to confront the danger we now face—and the knowledge to stop it before it ' s too late. Praise for *How Civil Wars Start* “ It turns out that there is a discipline that you might call ‘ civilwarology ’ —the study of the factors that lead to civil war. . . . Barbara F. Walter became a civilwarologist nearly a quarter of a century ago and her entry is evidently well-thumbed in the Rolodexes of the CIA and the U.S. State Department. In other words, she knows what she ' s talking about—which makes this book rather scary. ” —The Times (U.K.)

Updated to reflect the current political landscape, this book is emphasizes and explores causal questions in American Politics. It helps readers apply critical thinking tools – tools pulled directly from a social scientist ' s playbook – to start answering those questions, see past today ' s headlines, and understand why things really happen in our political world. Containing chapters on political culture, media and politics, and interest groups, readers will come away from this book able to think and view their world critically. Readers will come away

# Read Free American Democracy Now 2nd Edition

from the book not only excited by political questions, but with the means to explore possible answers as more thoughtful and empowered citizen
