Now in paperback-an inside look at Countrywide Home Loans and the mortgage crisis, from a former mortgage lender executive. In July 2004, Adam Michaelson attended a high-level meeting at Countrywide Financial headquarters about a new loan product that would allow borrowers to pay less than their minimum monthly payment. The "finance jocks" believed that the booming housing market would only get bigger, supporting homeowners in a cycle of borrowing against their houses and refinancing later. They were wrong. And when the bottom dropped out, Countrywide suffered the consequences-as did millions of Americans. With an insider's knowledge and thorough reporting on the impact on American families and the ripple effects on the economy, Michaelson examines the marketing of a mirage and the bad business decisions that destroyed a company, confronts the ethical questions that have arisen in the wake of the foreclosure crisis, and offers creative proposals to prevent such a meltdown from ever happening again.

Exposes how American Express used ruthless tactics to destroy the reputation of its competitor, Swiss banker Edmond Safra. This is a dramatic true crime story of corporate espionage and dirty dealing in the powerful world of international banking. Moving from the American Express offices in New York City to a luxurious estate in the South of France to secret meetings with government officials in Peru, it involves a rift between two men who have millions of dollars at stake, the shadowy peddling of information and a cast of characters that includes some of the most influential and successful bankers of the 80s.
