attempt but it does not include any study guide. The book focuses only on carefully selected practice questions. THREE main topics; LIFEGUARDING and WATER SKILLS are covered in this test. Lifeguarding questions focus on; #9642 Lifeguarding Skills #9642 Professional Rescuer and First Aid Water Skills questions focus on; #9642 Basic Water Rescue #9642 Waterfront Skills #9642 Waterpark Skills #9642 Shallow Water Lifeguarding Skills

Discusses the history and techniques of swimming and diving, safety rescue techniques, and skills for a variety of aquatic activities.

Rev. ed. of: First aid/CPR/AED for schools and the community. 3rd ed. c2006.

Lifeguard Training Activities and Games is a complete resource for aquatics managers or lifeguard supervisors responsible for conducting site-specific on-the-job training for lifeguards. The compilation of games, skill drills, activities, and guidance enhances training and conditioning of lifeguards and creates a high-performing staff. Throughout the book, the focus is on keeping activities fun and engaging to promote participation and ensure your lifeguards acquire the skills they need in order to take action in an emergency. The book contains more than 70 proven training activities divided into chapters by type of lifeguard skill. Each activity is short enough to be part of an in-service or class warm-up session. Most have variations, allowing for continued challenges of participants' performances through increasing levels of difficulty. The drills, games, and activities improve lifeguards' -general aquatic skills and physical fitness; -surveillance, emergency response, and rescue skills; and -teamwork and problem-solving skills. With this knowledge and training, you will be able to develop and maintain a high-performing lifeguard staff. Certification as a lifeguard is the first step in the overall training process. The real training begins on the job, and the responsibility for that training is left to the aquatics manager or lifeguard supervisor. Lifeguard Training Activities and Games makes that training fun, engaging, meaningful, and practical.

This New American Red Cross CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens
