On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

A bilingual guide to the basics of financial success. Getting ahead financially in the United States is a difficult task, and it is even more daunting for someone who comes from a different culture. resistant to love-sickness. Once you learn exactly why we absurdly equate love to suffering, you´ll know how to avoid falling into the trap and learn to foster more adaptive schemes of behaviour. Through the concepts of philosophy, psychology and his 30 years plus of experience as a therapist, in the 39 chapters of this book, Walter Riso guides us through a model or scheme of reflection to help us understand the characteristics of a love that is good (healthy, coherent, constructive) and one that is bad (sick, incoherent, destructive).

“ A sleek, sophisticated, madly clever chamber mystery ” from the international bestselling author—the basis for the film *Uncovered* starring Kate Beckinsale (The New York Times Book Review). A fifteenth-century painting by a Flemish master is about to be auctioned when Julia, a young art restorer, discovers a peculiar inscription hidden in a corner: Who killed the knight? In the painting, the Duke of Flanders and his knight are locked in a game of chess, and a dark lady lurks mysteriously in the background. Julia is determined to solve the five-hundred-year-old murder, but as she begins to look for clues, several of her friends in the art world are brutally murdered in quick succession. Messages left with the bodies suggest a crucial connection between the chess game in the painting, the knight’s murder, the sordid underside of the contemporary art world, and the latest deaths. Just when all of the players in the mystery seem to be pawns themselves, events race toward a shocking conclusion. A thriller like no other, *The Flanders Panel* presents a tantalizing puzzle for any connoisseur of mystery, chess, art, and history. “ A beguiling puzzle—a game within a game within a

game—solved in perplexing but entertaining fashion. ” —The Philadelphia Inquirer “ For mystery fans who yearn for literate, intelligent, sophisticated whodunits, Spanish author Pérez-Reverte ’ s highly acclaimed story fills the bill perfectly . . . An inventive plot, gripping suspense, fascinatingly complex characters, and innovative incorporation of art, literature, and music will enthrall readers looking for something a little different. ” —Booklist “ This intelligent mystery . . . comes up with a satisfying twist at the end. ” —Library Journal

Most people are both repelled and intrigued by the images of cold-blooded, conscienceless murderers that increasingly populate our movies, television programs, and newspaper headlines. With their flagrant criminal violation of society's rules, serial killers like Ted Bundy and John Wayne Gacy are among the most dramatic examples of the psychopath. Individuals with this personality disorder are fully aware of the consequences of their actions and know the difference between right and wrong, yet they are terrifyingly self-centered, remorseless, and unable to care about the feelings of others. Perhaps most frightening, they often seem completely normal to unsuspecting targets--and they do not always ply their trade by killing. Presenting a compelling portrait of these dangerous men and women based on 25 years of distinguished scientific research, Dr. Robert D. Hare vividly describes a world of con artists, hustlers, rapists, and other predators who charm, lie, and manipulate their way through life. Are psychopaths mad, or simply bad? How can they be recognized? And how can we protect ourselves? This book provides solid information and surprising insights for anyone seeking to understand this devastating condition.

"Relato de una pasión amorosa y erótica, narrada desde la soledad que crea la imposibilidad de fusión-posesión con el cuerpo amado. El centro de esa pasión absoluta es Aida. El amante ha contraído una adicción: el cuerpo de Aida, y necesita dosis cada vez mayores para sobrevivir. Por eso llega a decir: ""el amor es una droga dura""."

An audacious, exuberant novel that follows Cuca Martínez from childhood to motherhood in Cuba, where she fights to survive & be happy in a world on which fortune has consistently failed to smile.

Here is a set of essays on Historia general del Piru that discuss not only the manuscript's physical components--quires and watermarks, scripts and pigments--but also its relation to other Andean manuscripts, Inca textiles, European portraits, and Spanish sources and publication procedures. The sum is an unusually detailed and interdisciplinary analysis of the creation and fate of a historical and artistic treasure.

An empowering journey through the mechanisms of the mind from one of the world's leading mental health experts. For those in pursuit of a better life, psychiatrist Marian Rojas Estapé presents the essential guide to neuroscience-driven mindfulness. Understanding your brain, managing your emotions, and being aware of your responses to stressors can give you greater self-control. Rather than a gimmicky guidebook, this is a thorough look at how our brains react to stress, threats, hyperstimulation, and the vices of our digital age. With proven techniques backed by solid, up-to-date psychiatric research, Estapé teaches us how to make the best of our lives. Combining science, psychology, and philosophy, Estapé delivers
