What would it look like to turn to the Christian faith to cultivate meditation practices? Presenting Christian meditation as an alternative to Buddhist-informed mindfulness, this workbook from Dr. Joshua Knabb offers a Christian-sensitive approach to meditation in clinical practice, focusing on both building theory and providing replicable practices for Christian clients and their therapists.

Combining cutting-edge expertise with deeply rooted Christian insights, this text from a leading figure in the Christian counseling community offers readers a comprehensive survey of ten major counseling and psychotherapy approaches. For each approach, Siang-Yang Tan first provides a substantial introduction, assessing the approach's effectiveness and the latest research findings or empirical evidence for it. He then critiques the approach from a Christian perspective. Tan also includes hypothetical transcripts of interventions for each major approach to help readers get a better sense of the clinical work involved. This book presents a Christian approach to counseling and psychotherapy that is Christ centered, biblically based, and Spirit filled.

This volume surveys the state of the discipline on topics of greatest importance to evangelical theology. Each chapter has been written by a theologian or scholar who is widely recognized for his or her published work and is considered a leading thinker on that particular topic.

An Introduction to Ministry is a comprehensive and ecumenical introduction to the craft of ministry for ministers, pastors, and priests that make up the mainline denominations in the United States. Ecumenically-focused, It offers a grounded account of ministry, covering a wide range of areas such as vocation, congregational leadership, and cultivation of skills for an effective ministry. Covers the key components of the M.Div. curriculum, offering a map and guide to the central skills and issues in training Explores the areas

of vocation, skills for ministry, and issues around congregational leadership Each topic ends with an annotated bibliography providing an indispensable gateway to further study Helps students understand both the distinctive approach of their denomination and the relationship of that approach to other mainline denominations Advocates and defends a generous understanding of the Christian tradition in its openness and commitment to broad conversation

In the evangelical community, a variety of alternative mental health treatments--deliverance/exorcism, biblical counseling, reparative therapy and many others--have been proposed for the treatment of mentally ill, female and LGBT evangelicals. This book traces the history of these methods, focusing on the major proponents of each therapeutic system while also examining mainstream evangelical

psychology. The author concludes that in the majority of cases mental disorders are blamed on two main issues--sin and demonic possession/oppression--and that as a result some communities have become a mental health underclass who are ill-served or oppressed by both alternative and mainstream evangelical therapeutic systems. He argues that the only recourse left for mentally ill, female and LGBT evangelicals is to rally for reform and increased accountability for both professional and alternative evangelical practitioners.

Social work and relational theory have long been clinical comrades, given their shared goals and ideals. This close fit continues to be productive as client populations and their needs grow more diverse. Clinical Social Work Practice with Diverse Populations sorts

Read Free An Introduction To Clinical Evangelical Hermeneutics A Guide To The

History And Practice Of Biblical Interpretation through vital matters of race, ethnicity, sexuality, religion and social status--and addresses groups and issues often seen in practice but rarely encountered in print--with a profound understanding of the healing power of relational-based treatment. Case examples illustrate all stages of social work process, offering practice guidelines for working with members of diverse groups while emphasizing the uniqueness of every therapeutic dyad. The coverage recognizes the multiple relationships that comprise individuals' lives as well as the individuality that co-exists within group identity. And the contributors carefully show readers how to check themselves for biases and us-versus-them thinking and how to develop confidence along with clinical skills. Included in this first-of-its-kind text:

- Practice technique and research support for relational therapy.
- Whiteness: Deconstruction of a practice
