A grieving family flees Tehran after the Islamic Revolution in this novel of “ magical realism with a Persian twist ” translated from Farsi (The Guardian, UK). When their home in Tehran is burned to the ground by zealots, killing their thirteen-year-old daughter Bahar, a once-prominent family flees to a small village. There, they hope to preserve both their intellectual freedom and their lives. But they soon find themselves caught up in the post-revolutionary chaos that sweeps across their ancient land and its people. Bahar ’ s mother, after a tragic loss, will embark on a long, eventful journey in search of meaning in a world swept up in the post-revolutionary madness. The Enlightenment of the Greengage Tree speaks of the power of imagination when confronted with cruelty, and of our human need to make sense of trauma through the ritual of storytelling itself. Through her unforgettable characters, Iranian novelist Shokofeh Azar weaves a timely and timeless story that juxtaposes the beauty of an ancient, vibrant culture with the brutality of an oppressive political regime. “ [Azar ’ s] book is a great journey. It moves places and it moves us as readers, in an emotional and intellectual sense. ” —Robert Wood, The Los Angeles Review of Books

The New York Times expert on Iran explores the beauty and contradiction underlying this enigmatic country.

Unlike much of the instant analysis that appeared at the time of the Iranian revolution, Iran: From Religious Dispute to Revolution is based upon extensive fieldwork carried out in Iran. Michael M. J. Fischer draws upon his rich experience with the mullahs and their students in the holy city of Qum, composing a picture of Iranian society from the inside—the lives of ordinary people, the way that each class interprets Islam, and the role of religion and religious education in the culture. Fischer ’ s book, with its new introduction updating arguments for the post-Revolutionary period, brings a dynamic view of a society undergoing metamorphosis, which remains fundamental to understanding Iranian society in the early twenty-first century.

Insect Metamorphosis: From Natural History to Regulation of Development and Evolution explores the origin of metamorphosis, how it evolved, and how it is it regulated. The book discusses insect metamorphosis as a key innovation in insect evolution. With most of the present biodiversity on Earth composed of metamorphosing insects—approximately 1 million species currently described, with another 10-30 million still waiting to be discovered, the book delves into misconceptions and past treatments. In addition, the topic of integrating insect metamorphosis into the theory of evolution by natural selection as noted by Darwin in his On the Origin of Species is also discussed. Users will find this to be a comprehensive and updated review on insect metamorphosis, covering biological, physiological and molecular facets, with an emphasis on evolutionary aspects. Features updated knowledge from the past decade on the mechanisms of action of juvenile hormone, the main doorkeeper of insect metamorphosis Aids resaarchers in entomology or developmental biology dealing with specialized aspects of metamorphosis Provides applied entomologists with recently updated data, especially on regulation, to better face the problems of pest control and management Gives general evolutionary biologists context on the process of metamorphosis in its larger scope

Camelia Entekhabifard was six years old in 1979 when the shah of Iran was overthrown by revolutionary supporters of the Ayatollah Khomeini. By the age of sixteen, Camelia was a nationally celebrated poet, and at eighteen she was one of the youngest reformist journalists in Tehran. Just eight years later she was imprisoned, held in solitary confinement, and charged with breaching national security and challenging the authority of the Islamic regime. Camelia is both a story of growing up in post-revolutionary Tehran and a haunting reminder of the consequences of speaking the truth in a repressive society.

Since the 1979 revolution, scholars and policy makers alike have tended to see Iranian political actors as religiously driven—dedicated to overturning the international order in line with a theologically prescribed outlook. This provocative book argues that such views have the link between religious ideology and political order in Iran backwards. Religious Statecraft examines the politics of Islam, rather than political Islam, to achieve a new understanding of Iranian politics and its ideological contradictions. Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran ’ s factional and international politics, demonstrating that religious narratives in Iran can change rapidly, frequently, and dramatically in accordance with elites ’ threat perceptions. He argues that the Islamists ’ gambit to capture the state depended on attaining a monopoly over the use of religious narratives. Tabaar explains how competing political actors strategically develop and deploy Shi ’ a-inspired ideologies to gain credibility, constrain political rivals, and raise mass support. He also challenges readers to rethink conventional wisdom regarding the revolution, Ayatollah Khomeini, the U.S. embassy hostage crisis, the Iran-Iraq War, the Green Movement, nuclear politics, and U.S.–Iran relations. Based on a micro-level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs, Religious Statecraft constructs a new picture of Iranian politics in which power drives Islamist ideology.

As a nine-year-old Tehrani schoolgirl during the Iranian Revolution, Nazila Fathi watched her country change before her eyes. The revolutionaries—most of them poor, uneducated, and radicalized—seized jobs, housing, and positions of power, transforming Iranian society practically overnight. But this socioeconomic revolution had an unintended effect. As Fathi shows, the forces unleashed in 1979 inadvertently created a robust Iranian middle class, one that today hungers for more personal freedoms and a renewed relationship with the outside world. And unless an international confrontation allows Iranian leaders to justify an internal crackdown, this internal pressure for reform will soon set the country on a more stable track. In The Lonely War, Fathi describes Iran’s awakening alongside her own, revealing how moderates are retaking the country—and how foreign powers can aid their progress.
