Historian Jonathan Bardon comments, "It is an arresting thought that human beings had been living in Australia for 40,000 years before the very first people came to live in Ireland" (1). Bardon and others attribute this to the Midlandian Ice Age whose vast sheets of ice only began melting in Ireland c. 15,000 BCE.

The prehistory of Ireland, pieced together from archaeological evidence, begins with the first evidence of humans in Ireland around 10,500 BC, and finishes with the start of the historical record around 400 AD. Both of these dates are later than for much of Europe and all of the Near East. The prehistoric period covers the Palaeolithic, Mesolithic, Neolithic, Bronze Age and Iron Age societies of Ireland. For much of Europe, the historical record begins when the Romans invaded; as Ireland was not

When the Celts first arrived in Ireland around 200 B.C., the island had already been inhabited for over 7000 years. Drawing on a wealth of archaeological evidence and the author's own mastery of the subject, *Ancient Ireland* returns to those pre-Celtic roots in a bid to discover the secrets of the island's first inhabitants: Who were they? And how did they live? Few accounts of the period are as exhaustively researched; fewer still are as alive with historical insight and compelling detail. At once accessible and comprehensive, *Ancient Ireland* is an indispensable guide to early Irish civilisation, its culture and mythology.

When the Celts first arrived in Ireland around 250BC, the island had already been inhabited for over 7,000 years. These pre-Celtic peoples have left no written records, but they have left extensive archaeological evidence, of which Newgrange is the most celebrated example. Who were these peoples and how did they live? Using archaeological evidence, Laurence Flanagan pieces together the sort of houses they built, the way they cultivated the land, their social and economic systems, and many other aspects of daily life in pre-Celtic Ireland. Combining scholarship with an accessible style, the book provides a unique and fascinating insight into a lost, fabled world.

This engaging book traces the history, archaeology, and legends of ancient Ireland from 9000 B.C., when nomadic hunter-gatherers appeared in Ireland at the end of the last Ice Age to 1167 A.D., when a Norman invasion brought the country under control of the English crown for the first time. So much of what people today accept as ancient Irish history—Celtic invaders from Euproe turning Ireland into a Celtic nation; St. Patrick driving the snakes from Ireland and converting its people to Christianity—is myth and legend with little basis in reality. The truth is more interesting. The Irish, as the authors show, are not even Celtic in an archaeological sense. And there were plenty of bishops in Ireland before a British missionary called Patrick arrived. *In Search of Ancient Ireland* is not simply the story of events from long ago. Across Ireland today are festivals, places, and folk customs that provide a tangible link to events thousands of years past. The authors visit and describe many of these places and festivals, talking to a wide variety of historians, scholars, poets, and storytellers in the very settings where history happened. Thus the book is also a journey on the ground to uncover ten thousand years of Irish identity. *In Search of Ancient Ireland* is the official companion to the three-part PBS documentary series. With 14 black-and-white photos, 6 b&w illustrations, and 1 map.

Tells the story of human settlement in Ireland from its beginnings 10,000 years ago to St Patrick's Christianizing mission in the 5th century AD. This is interwoven with accounts of major excavations at sites such as Carrowmore, Rathgall and Navan Fort.

In A.D. 664, King Oswy of Northumbria has convened a synod at Whitby to hear debate between the Roman and Celtic Christian churches and decide which shall be granted primacy in his kingdom. At stake is much more than a few disputed points of ritual; Oswy's decision could affect the survival of either church in the Saxon kingdoms. When the Abbess Etain, a leading speaker for the Celtic church, is found murdered, suspicion falls upon the Roman faction. In order to diffuse the tensions that threaten to erupt into civil war, Oswy turns to Sister Fidelma of the Celtic Church (Irish and an advocate for the Brehon Court) and Brother Eadulf of the Roman church (from east Anglia and of a family of hereditary magistrates) to find the killer. But as further murders occur and a treasonous plot against Oswy matures, Fidelma and Eadulf soon find themselves running out of time.

"Tremayne writes so authentically about this remote time period that readers will feel they are there in every way...a delight!" -- Library Journal (starred review) on *Master of Souls* "The action is tense and gripping...a compelling, enjoyable adventure." -- The Philadelphia Inquirer on *The Monk Who Vanished In the late 7th Century*, the High King of Ireland is killed at night in the middle of his compound. Who killed him is not in question - there are unimpeachable witnesses that point directly to the clan chieftain responsible. Dubh Duin is, after all, found by the High King's guards in the High King's bed chamber holding the murder weapon. But with impending civil war in the balance, the motive for the murder becomes of paramount importance. The Chief Brehon of Ireland asks Fidelma of Cashel - sister to the King of Muman and a dailagh - to investigate. What her investigations reveal is an intricate web of conspiracy and deception that threatens to unbalance the five kingdoms and send them spiralling into a violent and bloody civil war and religious conflict. And it's up to Fidelma to not only see to justice but to private the violent fracturing of an increasingly fragile peace.
