As research in tourism and hospitality reaches maturity, a growing number of methodological approaches are being utilized and, in addition, this knowledge is dispersed across a wide range of journals. Consequently there is a broad and multidisciplinary community of tourism and hospitality researchers whom, at present, need to look widely for support on methods. In this volume, researchers fulfil a pressing need by clearly presenting methodological issues within tourism and hospitality research alongside particular methods and share their experiences of what works, what does not work and where challenges and innovations lie.

At last, a comprehensive, systematically organized Handbook which gives a reliable and critical guide to all aspects of one of the world ' s leading industries: the hospitality industry. The book focuses on key aspects of the hospitality management curriculum, research and practice bringing together leading scholars throughout the world. Each essay examines a theme or functional aspect of hospitality management and offers a critical overview of the principle ideas and issues that have contributed, and continue to contribute, within it. Topics include: • The nature of hospitality and hospitality management • The relationship of hospitality management to tourism, leisure and education provision • The current state of development of the international hospitality business • The core activities of food, beverage and accommodation management • Research strategies in hospitality management • Innovation and entrepreneurship trends • The role of information technology The SAGE Handbook of Hospitality Management constitutes a single, comprehensive source of reference which will satisfy the information needs of both specialists in the field and non-specialists who require a contemporary introduction to the hospitality industry and its analysis. Bob Brotherton formerly taught students of Hospitality and Tourism at Manchester Metropolitan University. He has also taught Research Methods to Hospitality and Tourism students at a number of international institutions as a visiting lecturer; Roy C. Wood is based in the Oberoi Centre of Learning and Development, India

Companies compete to gain public notoriety every day and use creativity and innovation to get ahead of their competition. In oversaturated industries, such as the tourism sector, smart strategies and global network capabilities must be adopted and improved in order to increase competitiveness. Multilevel Approach to Competitiveness in the Global Tourism Industry contains crucial reference material that discusses new intelligent practices to increase business competitiveness in the tourism sector. Featuring research on topics such as networking, artificial intelligence, and regional competitiveness, this book is ideally designed for program directors, event coordinators, tour developers, hotel managers, restaurateurs, travel agents, policymakers, academics, researchers, advanced students, entrepreneurs, government officials, and professionals in the tourism and hospitality industry.
