The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the compulsory topic of AQA's Paper 3: Relationships, this book is deliberately laid out with the assessment objectives in mind, from AO1 - Knowledge and Understanding material, followed by AO2 - Application material, to AO3 - Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinct within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner style comments to provide greater insight into how to/not to answer exam questions. An engaging, relevant and challenging text which broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A Level Paper 3 in Psychology.

The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the AQA's Paper 3: Forensic Psychology, this book is deliberately laid out with the assessment objectives in mind, from AO1: Knowledge and understanding material, followed by AO2: Application material, to AO3: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinguished within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the Paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text which broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A Level Paper 3 in Psychology.

This book provides simple, clear, in-depth explanations of all the topics in the AQA GCSE specification 4180 syllabus but it will prove invaluable to students at many levels on many courses and to the independent reader. It can be used as a stand-alone home study course, as a classroom text, as a reference text or just for pleasure for those who love to think about what makes people tick. Psychology describes up-to-date research as well as some classic psychology studies and even debunks one or two psychology research myths. It leads the reader through all the topics in the syllabus as a teacher would in a classroom setting. Topics are presented as a series of lessons followed by Check Your Understanding sections, which are designed to help you check and retain the information in each lesson. An assessment record provided at the end of the book will help you keep track of your progress. Lessons are interactive with many opportunities to jot down your thoughts and reactions, reflect on how a topic relates to your own experience, discuss with other people and become more involved with the material presented. Students can pinpoint the topics they are studying for GCSE by using the table mapping the GCSE specification against the lessons in this book. For those studying outside formal classrooms there are guidelines about how best to approach your studies. The book assumes that readers have no previous knowledge of psychology and among the topics covered are: - Conformity and Obedience - would you press a button to kill someone just because you are told to do so? Many people would, it seems. - Sex and Gender - do girls and boys, men and women behave so differently? If so, why? - Memory - how does memory work and how accurate is it? - Non-Verbal Communication - do we reveal our true feelings in our body language? - Development of Personality - what exactly is Anti-Social Personality Disorder? - Prejudice and Discrimination - are we bound to discriminate against people who are unlike us? - Learning - how to remove your fear of spiders/snakes/flying/open spaces or anything else using the principles of learning. - Aggression - is aggression born into us? Is it in our hormones? Or do we learn to fight? - Research Methods and the Ethics of Psychology - psychology is based on evidence, not just ideas. But what type of study constitutes good evidence and how should we treat the people in our studies?

The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the optional topic of AQA's Paper 3: Schizophrenia, this book is deliberately laid out with the assessment objectives in mind, from AO1: Knowledge and understanding material, followed by AO2: Application material, to AO3: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinct within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text that broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A Level Paper 3 in Psychology.

AQA Psychology for AS and A-level Year 1 is the definitive textbook for the new 2015 curriculum. Written by eminent psychologist Professor Michael Eysenck, in collaboration with a team of experienced A-level teachers and examiner, the book enables students not only to pass their exams with flying colours, but also to fully engage with the science of psychology. As well as covering the six core topics students will study, the book includes: Activities which test concepts or hypotheses, bringing theory to life Key research studies explained and explored, showing the basis on which theory has developed Case studies which show how people's lives are affected by psychological phenomena Evaluation boxes which critically appraise key concepts and theories Self-assessment questions which encourage students to reflect on what they've learnt Section summaries to support the understanding of specific ideas - perfect for revision Exam hints which steer students towards complete and balanced answers Key terms defined throughout so students aren't confused by new language 200 figures, tables and photos End of chapter further reading to enable students to develop a deeper understanding End of chapter revision questions and sample exam papers to consolidate knowledge and practice exam technique A full companion website with a range of further resources for both students and teachers, including

revision aids and class materials Incorporating greater coverage of research methods, as well as key statistical techniques, the sixth edition of this well-loved textbook continues to be the perfect introduction to psychology. Accessible yet rigorous, the book is the ideal textbook for students taking either the AS course or year 1 of the A-level.

Now in full colour, this thoroughly revised and updated 3rd edition of Psychology for AS Level takes into account all the latest changes to the AQA-A syllabus since the last edition was published. It remains closely mapped to the specification making it ideal for students taking the AS Level Psychology exam. New to this edition is a strong emphasis on exam technique, giving students the best chance possible of the highest grades. A whole chapter is devoted to how to study and how to pass, with an 'Examiner's Viewpoint' written by the Chief Examiner at AQA-A. Throughout the book are hints and tips on picking up marks, and there are constant page references to the summarised content in our companion AS revision guide. Further examination support is provided by our accompanying student website, AS Online, available on a subscription basis to all schools and sixth form colleges that adopt the text. This includes a Student Workbook, interactive exercises, sample essays, interactive multiple-choice questions, a complete Exam Companion and much more. We also provide teacher resources free of charge to qualifying adopters which include a week-by-week teaching plan, sample essays, chapter-by-chapter lecture presentations, and classroom exercises and activities. Please see <http://www.a-levelpsychology.co.uk/online> for further details of these resources and a demo chapter of AS Online. The book includes coverage of six key areas in psychology: human memory, attachments in development, stress, abnormality, social influence and research methods. It retains the thorough content, volume of features and excellent writing style of previous editions but the layout is now fully structured to improve accessibility. Unlike other A-Level textbooks which focus solely on passing the exam, 'Psychology for AS Level' is also designed to foster an interest in the study of psychology as a subject. To this end, the book includes an additional general chapter to introduce the theories and explanations that make psychology a fascinating discipline.

The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the compulsory topic of AQA's Paper 3: Issues and Debates, this book is deliberately laid out with the assessment objectives in mind, from AO1: Knowledge and understanding material, followed by AO2: Application material, to AO3: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinguished within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the Paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner-style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text that broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A level Paper 3 in Psychology.

Teaching Psychology 14-19 - first published as Teaching Post-16 Psychology - is a core text for all training psychology teachers, as well as experienced teachers engaged in further study and professional development. Taking a reflective approach, Matt Jarvis explores key issues and debates against a backdrop of research and theory, and provides guidance on practical ideas intended to make life in the psychology classroom easier. With an emphasis on the application of psychology to teaching psychology, it clearly and comprehensively covers the knowledge essential to develop as a successful teacher. Key issues considered include: The appeal of psychology and what the subject can offer students The psychology curriculum and advice on how to choose a syllabus Principles of effective teaching and learning Teaching psychological thinking Differentiated psychology teaching Choosing and developing resources Using technology effectively. With a new chapter exploring the role of practical work in the post-coursework era, this second edition considers psychology teaching across the 14-19 age range and has been updated in light of the latest research, policy and practice in the field. Teaching Psychology 14-19 is an essential text for all those engaged in enhancing their understanding of teaching psychology in the secondary school.

The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the top of AQA's Paper 3: Relationships, this book is deliberately laid out with the assessment objectives in mind, from AO1: Knowledge and Understanding material, followed by AO2: Application material, to AO3: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinct within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner-style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text which broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A Level Paper 3 in Psychology.
