Why AQA Psychology? Psychology is a popular subject which is attractive to students because it develops a range of valuable skills, including critical analysis, independent thinking and research. These skills are particularly relevant to young people and are transferable to further study and the workplace.

This thoroughly updated edition of the bestselling Psychology for A2 Level has been written specifically for the new AQA-A Psychology A2-level specification for teaching from September 2009. It is the ideal follow-up to AS Level Psychology, 4th edition by the same author, but also to any AS-level textbook. This full-colour book, which builds on the ideas and insights explored at AS Level to promote a deeper understanding of psychology, is written in an engaging and accessible style by a highly experienced author. It incorporates contributions, advice and feedback from a host of A-Level teachers and psychologists including Philip Banyard, Evie Bentley, Clare Charles, Diana Dwyer, Mark Griffiths and Craig Roberts. At this level, students select options from a range of specified topics and this book includes chapters on all of the compulsory and optional topics that are on the new A2 syllabus in sufficient depth for the requirements of the course. It has a new focus on the nature and scope of psychology as a science with an emphasis on how science works, and guidance on how to engage students in practical scientific research activities. Presented in a clear, reader-friendly layout, the book is packed with advice on exam technique, hints and tips to give students the best chance possible of achieving the highest grade. The book is supported by our comprehensive package of online student and teacher resources, A2 Psychology Online. Student resoures feature a wealth of multimedia materials to bring the subject to life, including our new A2 revision guide and A2 Workbook, multiple choice quizzes, revision question tips, interactive exercises and podcasts by key figures in psychology. Teacher resources include a teaching plan, chapter-by-chapter lecture presentations, and classroom exercises and activities.

This Complete A2 Psychology Student workbook combines the topics in the AQA-A specification unit 4 -Section A - Schizophrenia, Depression and Anxiety Disorders. Section B - Media Psychology, Psychology of Addictive Behaviour and Anomalistic PsychologySection C - Research MethodsIt has been specifically developed to give you all the information you need to be able to successfully sit the A2 PSYA4 exam. The Independent Learner Series are the only books to combine both textbook style content and workbook style self study activities and exam style questions. All the material is designed to help and guide you through the learning process and to develop strong evaluation and analysis skills.

This practical, activity-based textbook from well-known psychology author Cara Flanagan covers everything you need to know for the research methods part of your A Level psychology course.The skills, knowledge and understanding needed to get to grips with this challenging part of the course are delivered in an appealing magazine-style layout. Appropriate for all AS and A Level Psychology specifications (AQA, OCR, WJEC/Eduqas and Edexcel), this book is perfect for learning about research methods either as a stand-alone or integrated part of the course.

In the 1960's a 26-year-old schoolmaster at a Scottish reformatory (Lis D) School, under the alias of James Patrick, went undercover with the help of one of his pupils to study the often violent behaviour of the teenagers in a gang in Glasgow. He managed to conceal his identity and motives and during the course of a four-month assignation in 1966 he observed closely the gang members and concluded that the boys were 'afraid of fighting other gangs but more afraid of not fighting them.' Ultimately it was 'the struggle between identification with the boys and abhorrence of their violence that forced me to quit.' This book became the first published observation of a Glasgow gang and as such has stood the test of time as a number of factors that Patrick identified as contributing to the growth of gang culture still remain in existence today, most crucially poverty, grim housing conditions and unemployment. This is a portrait of gang culture before the drug barons moved in and created another level of violence and as such it deserves its cult status.Now fully indexed with a new Preface from the author whose whereabouts remain known only to the publishers.The republication of the book follows Peter Mulian's highly rated film 'Neds' which portrays a Glasgow gang in the 1970s.

The unique approach of this book is that it provides comprehensive coverage of only the most popular areas of the AQA A A2 specification: relationships, pro- and anti-social behaviour, biological rhythms, cognitive development, social and personality development, evolutionary explanationsof human behaviour, psychopathology, treating mental disorders, plus issues, debates and approaches. This core textbook offers students the opportunity to improve their grades and have their very own expert to take home the friendly examiner - The Complete Companion!

Written by a senior examiner for the Scottish Higher and two leading authors and examiners, this book for the Scottish Higher is a tailor-made resource that will help turn your understanding of psychology into even better examination performance.

**BUSINESS RESEARCH METHODS, 8E**, examines a variety of research methods that can be utilized across business functions including marketing, finance, management, and accounting. The book superbly demonstrates how the practice of business research aids managers in making critical business decisions in our new digital age.

The Complete Companion for AQA A Level Year 1 and AS 5th Edition delivers outstanding up-to-date study, revision and exam support. Written by Mike Cardwell and Cara Flanagan, this student book helps turn understanding of psychology into even better exam performance, with thorough and exceptionally clear coverage of the specifications.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.
