THE STORY-TELLER TO HIS AUDIENCE.If I were telling my stories to an audience composed of Armenians, as I told them years ago, I would begin without any preliminary remarks or introduction. But since the audience is made up of people who are comparatively unacquainted with my native land and its traditions, naturally they will like to know who the story-teller is, where he got his narratives, and by whom and how his tales were first told.About twenty years ago I was a boy living in a village on the heights of the Taurus Mountains in Cilicia, or Lesser Armenia, not far from the Mediterranean Sea. Like boys and girls all over the world, I was very fond of stories; but there were no story-books or other reading matter with which I and other children of my age could gratify our eager desire for stories. But better than these were the aged folks who told us all the interesting stories which our inquisitive childhood required. I had two grandmothers and half a dozen aunts, all unlettered country people, who took great delight in a rich store of folk-lore and fairy tales, and who told me the most entertaining and delightful stories that I have ever heard. In every village home there were one or two such old people, who entertained the youth of their respective homes. During the long winter evenings we boys and girls gathered together around the village hearth to listen to the old man or aged woman rehearsing tales of fairies, giants, genii, dragons, knights, winged beauties, captive maidens, and other thousand and one mysterious beings. I need not say how, with utmost interest, our youthful minds used to follow the details of these vivid and picturesque stories, drinking in every word with the greatest avidity. This was true not only of children but of grown-up people also, whose principal pastime, during the long and tedious winter nights, was the rehearsing of folk-tales and fairy stories, or listening to others as they told them.These circumstances gave me opportunity and power to commit to memory a great number of tales and rehearse them whenever there was a favorable occasion. By this means I improved and increased my store of tales so much that I became quite a noted story-teller in our village, at a time when I was but a mere lad. Subsequently, both during my college course in Aintab, Cilicia, and during the period when I was a teacher in Erzroom, of Armenia proper, I had the opportunity to travel a great deal and to study the life and manners of the Armenians in their primitive homes. I found the same fairy stories and folk-tales current everywhere, with such slight differences only as the people made when appropriating the tales to their own surroundings and to their fund of knowledge. At that time it occurred to my mind that it would be a good plan to make a collection of these tales in order to make use of them some day, and so I kept notes of the tales just as they were told by the common, unlettered country people.Bishop Sirwanzdians, an Armenian clergyman, also made a collection of Armenian folk-tales, taking them from the mouth of the people just as they were told. He published his collection in two separate books. The first, “ Manana ” (Manna), was printed in Constantinople in 1876 by the Dinessian Printing-press (since closed), and the second, “ Hamov-Hodov ” (Delicious and Fragrant) ” was printed in Constantinople in 1884 by the Bagdadlian Printing-press.My personal notes of Armenian tales and these two books of Bishop Sirwanzdians have furnished the material of the present volume. As the Bishop and myself made our collections independently in different districts of Armenia, our texts naturally differed from each other in some points. But the two being substantially the same, in putting the stories into English I have followed the one which I thought to be the most original, taking all the circumstances into consideration.

A collection of the finest classic Armenian folk tales and legends, passed down through the generations. These tales are "captivating," entertaining and full of wisdom, true-to-tradition, and easy to read.

In this book Hasan M. El-Shamy has gathered the first authentic new collection of modern Egyptian folk narratives to appear in nearly a century. El-Shamy’s English translations of these orally presented stories not only preserve their spirit, but give Middle Eastern lore the scholarly attention it has long deserved. "This collection of seventy recently collected Egyptian tales is a major contribution to African studies and to international distribution studies of folktales. In the face of the recent anthropological trend to use folkloric materials for extra-folkloric purposes, the preeminence of the text must be asserted once more, and these are obviously authentic, straightforwardly translated, fully documented as to date of collection and social category of informant, and for all that . . . readable."—Daniel J. Crowley, Research in African Literatures "Western knowledge of virtually all facets of contemporary Egyptian culture, much less the roots of that culture, is woefully inadequate. By providing an interesting, varied, and readable collection of Egyptian folktales and offering clear and sensible accounts of their background and meaning, this book renders a valuable service indeed."—Kenneth J. Perkins, International Journal of Oral History

“ In Marxist anthropological theory, shamanism represented one of the early forms of religion that later gave rise to more sophisticated beliefs in the course of human advancement ... The premise of Marxism was that eventually, at the highest levels of civilization, the sacred and religion would eventually die out ” (Znamenski, 2007, p.322). Though history has of course since disproved this, the theory clearly had a great bearing on what was written in the former Soviet Union about shamanism, and also on people ’ s attitudes in the former Soviet Republics towards such practices. On the other hand, it has been suggested that “ all intellectuals driven by nationalist sentiments directly or indirectly are always preoccupied with searching for the most ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous ” (Znamenski, 2007, p.28). Although this might apply to searching for the roots of Christianity in Armenia, when it comes to searching for the roots of pagan practices, interest on the part of the people of Armenia is generally speaking not so forthcoming. This impasse, coupled with the effects of the repressions against religions, including shamanism, unleashed by the Soviet government between the 1930s and 1950s, along with the recent surge of interest in the Armenian Orthodox church, a backlash to the seventy years of officially sanctioned atheism, makes research into the subject no easy business. However, hopefully this study will at least in some small way help to set the process in motion.

Herein are 29 Armenian Fairy Tales and legends. Some of these stories may have a familiar ring and others will be entirely " new " to the reader despite them being millennia old. Here you will stories like: * The Golden Maiden * The Betrothed Of Destiny * The Fairy Nightingale * The Dreamer * The Bride Of The Fountain * Dyjhicon: The Coward-Hero * Zoolvisia * Dragon-Child And Sun-Child * The Magic Ring * Bedik And The Invulnerable Giant * The Maiden Of The Sea; and many, many more. A distinguished English student of folk-lore wrote: " Armenia offers a rich and hitherto almost untouched library of folklore. " Never before has such a true statement been made, for Armenia sits astride the main northern arm of the Silk Route – the one which runs north, from Persia and the ancient city of Persepolis through the valley of Ararat and the Caucasus corridor to the Black sea to the capitals of Northern Europe. It is along this axis that stories, goods and spices were traded. Initially this was an East – West trade, but as Europe grew and matured this became a two-way trade with European culture and customs travelling East and Eastern culture and customs travelling West, all through Armenia where a great deal of them were deposited and took root. So it is from this source that these tales have been drawn – and we ' ve only just scratched the surface. 10% of the profit from the sale of this book will be donated to charities. =====
