Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path."

Developers who want to access USB devices from their embedded systems will find a helpful resource in USB Embedded Hosts: The Developer ' s Guide. This new book from the author of USB Complete shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. The book begins with a review of USB host communication protocols. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don ' t fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board

using a distribution of Linux targeted to small systems. Also covered is how to use Linux commands and utilities to learn about, monitor, and debug communications with USB devices.

This collection of stories, set in various locales of North Carolina create entire worlds and indelible moments as only the best short fiction does.

Paranormal romance is a supernatural force to be reckoned with. Although packed with a menagerie of werewolves, shapeshifters and assorted demons, its undisputed king is none other than our favourite centuries-old bloodsucker - the vampire. We're now living in a post-Buffy world of dark urban fantasy à la Laurell K. Hamilton's Anita Blake, Sherrilyn Kenyon's irresistible Dark Hunters and the blood-lusting soul mates of Christine Feehan. But it doesn't stop there. This Mammoth collection opens a vein to reveal the mind-boggling scope of the supercharged phenomenon created when vampires met romance. Let the biggest and brightest names in the paranormal romance business take you hot on the haemoglobin trail of the sexiest creatures of the night. Witness the bewildering array of complex vampire codes of conduct, dark ritual and dating practices, as they chat up the locals and engage in the most erotic encounters you will sink your teeth into this side of un-Death. These ain't your mother's vampires!

Realizing a competitive education: identifying needs, partnerships, and resources: hearing before the Committee on Finance, United States Senate, One Hundred Tenth Congress, first session, March 20, 2007.

Blending three primary colors to create the full spectrum of hues is more than a test of an artist's skill; it's a distinctive way to create stunning and original paintings. In this hands-on course in the art of color mixing, prize-winning artist Stan Kaminski takes the reader step by step through 20 demonstration paintings created with just three colors—alizarin crimson, ultramarine blue, and yellow ochre—plus white. Using gouache in both watercolor and oil-painting styles, he offers painters of all skill levels the benefit of his professional guidance and inspiration.
