Work-life balance is one of the most important issues facing employers and managers today. Employees at all levels are no longer willing to trade their quality of life in order to get a decent standard of living. Managers can no longer afford to ignore the costs that the long-hours culture imposes on their organisation. Overwork causes stress-related absenteeism, poor retention levels, low creativity, appalling customer service and unethical employee behaviour. Combine that with the risks of being sued by a stressed employee or a parent who wanted to work flexibly, and the business case for paying real attention to work-life issues has never been

friends. You want to get ahead at work, but you don't want to give up the rest of your life to do it! Am I right so far? If so, then the book, 'Balance Your Life - The Complete Guide to Managing Work and Family', is definitely something you need! See if this sounds familiar: Sarah is a married mother of two small children. She is climbing the corporate ladder and is now a Bank Manager with aspirations to get to Headquarters and focus on International Banking. Sarah works an average of seventy hours per week and her children spend much of their time with babysitters and with their grandmother. When Sarah gets home, she is too tired to spend time with her kids, too tired for her husband and much too tired for any pleasurable evening activities with friends. She feels trapped, fatigued, stressed and overworked, but she doesn't know what to do about it. Does this sound like anyone you know? Jim owns a

franchise tire and brake service store and he spends most of his time at work. He is afraid to leave his employees to manage things because it is his business and he wants things done right. But he finds himself working every weekend and his wife has gotten tired of spending evenings and Sundays alone. She wants to go out to dinner and a movie but, when Jim gets home, it is too late and he is too tired. Jim's mother is aging and his father passed away. He needs to spend more time with Mom. He wants to get some work done on your house and fix some things that are in disrepair, but he barely has time for the upkeep on his own house. I'm sure you know the feeling! If this sounds like your life; if you are stressed, tired and overworked with no time for yourself, your family or your friends, you have come to the right place. I know how to help you What I can teach you is not difficult to learn. 'Balance Your Life -

Work in the construction industry is particularly tough. It demands excessively long hours and frequent weekend work. Other characteristics are particularly marked, such as re-location, job insecurity and distinctive behavioural patterns, which negatively affect employees' personal lives further. Work-life balance has emerged as one of the most pressing management issues in the 21st century. For construction managers dealing with traditional models of work and rigid work schedules, the issue may be especially difficult to manage, and yet the work-life balance is now recognised as an issue of strategic importance to the construction

industry. It is critical to the construction industry's continued ability to attract and retain a talented workforce, and it is also inextricably linked to organizational effectiveness and employees' well-being. This book presents the argument for the management of work–life balance in the construction industry. It maps the changes to the workforce demographic profile and the changing expectations relating to work and personal life that occurred during the second half of the 20th century. Legal imperatives for managing work–life balance are set out. It also presents work–life balance theory and discusses the practical implications of research, along with extensive empirical data collected from the industry. Lastly, practical advice is provided about what construction organizations can and should do to manage work–life balance. This provides a unique guide to a key issue.

At a time of rapid global change, development NGOs are having to scale up their impact, diversify their activities, respond to long-term crises and improve their performance on all fronts. Striking a Balance offers both analysis and a practical guide to how NGDOs can fulfil these demanding expectations. Written for all those involved with NGDO work, the book describes the objectives of sustainable people-centred development and the process required to achieve it, focusing on the five factors which determine effectiveness: suitable organisational design; competent leadership and human resources; appropriate external relationships; mobilisation of high quality finance; and the measurement of performance coupled to 'learning for leverage'. In each the book explains the capacities needed and how they can be assessed and improved. Effectiveness calls for NGDOs which retain their non-
