### Clinical Nursing Skills and Techniques - 9th Edition

Basic Nursing is known for its direct, easy-to-read style and visually appealing design, making it perfect for busy nursing students. It covers all essential nursing principles, concepts, and skills and consistently follows the 5-step nursing process framework. With a strong focus on critical thinking, lead authors Patricia A. Potter and Anne Griffin Perry provide an excel

Building on the strengths of the fourth edition, Basic Nursing: Essentials for Practice is back in a new edition! Thoroughly updated and revised to provide a more focused and engaging presentation, this new edition offers the basic principles, concepts, and skills needed by nursing students. The five-step nursing process returns to provide a consistent, logical organizational framework, with a clear writing style and numerous learning aids. An increased emphasis on caring, along with new boxes on Focused Client Assessment and Outcome Evaluation, reflect current practice trends. This new edition is better than ever! Five-Step Nursing Process provides a consistent organizational framework. More than 40 nursing skills are presented in a clear, 2-column format with rationales for all steps. Procedural Guidelines boxes provide streamlined step-by-step instructions for performing basic skills. Growth and Development chapter and age-related considerations throughout clinical chapters help prepare students to care for clients of all ages. Sample Nursing Care Plans highlight defining characteristics in assessment data, include client goals and expected outcomes in the planning section, and provide rationales for each nursing intervention. Progressive Case Studies follow the interactions of a client and nurse throughout the chapter to illustrate steps in the nursing process and develop critical thinking skills. Brief coverage of higher level concepts including research, theory, professional roles, and management, maintains the text's focus on essential, basic content. The narrative style makes the text more engaging and appealing. Focused Client Assessment boxes provide specific guidelines for factors to assess, questions and approaches, and physical assessment. Content on delegation is discussed throughout the narrative and specific guidelines are included for each skill. Skills now include Unexpected Outcomes and Interventions to alert for potential undesirable responses and provide appropriate nursing actions. Caring in Nursing is presented in a new chapter and as a thread throughout the text. Outcome Evaluation are based on the chapter's case study and provide guidelines on how to ask questions and evaluate care based on the answers received. NIC and NOC are discussed in the Nursing Process chapter to provide an overview of these taxonomies encountered in practice. NCLEX-style multiple-choice questions at the end of each chapter help students evaluate learning.

Introducing Virtual Clinical Excursions -- a new breed of workbook that is now a critical component of several of Mosby and W.B. Saunders' most prominent nursing texts. Inside, an extraordinary new CD-ROM provides an incredibly true-to-life simulation of clinical practice! This CD-ROM features a virtual hospital setting with five unique patients. These patients have their own diverse health problems, medical histories, families, cultural backgrounds, and personalities. You can access the patients, review their charts, lab data, and medication administration records...monitor daily changes when their nurses take their vital signs and perform a variety of tests...formulate nursing diagnoses...and plan interventions. In short, you can practice making all of the clinical decisions that lie at the heart of nursing...on your own schedules and at your own convenience! This workbook sends you into the virtual hospital

This innovative text presents nursing fundamentals in a concise, visually attractive format that captures students' attention and addresses dramatic changes taking place in the health care environment. At the heart of this revision is the critical thinking model presented as a practical, clinical decision-making guide and applied to the nursing process throughout. Case studies in all clinical chapters bring this process to life, demonstrating to students how using the combination of critical thinking and the nursing process will help them deliver comprehensive, professional care. Case studies introduce the client, family and nurse, and follow them through synthesizing knowledge and assessment data, planning and evaluating care. It addresses community health care and health promotion by consistently organizing each implementation section into three main areas: health promotion, acute care, and restorative care. Other themes include delegation, multidisciplinary collaboration, focus on outcomes, cultural sensitivity, gerontologic principles, and client satisfaction. \* Complete coverage of fundamentals in a concise, readable, visually appealing format. \* Five-step nursing process provides a consistent framework in all clinical chapters. \* Hundreds of color photographs and drawings increase educational value while adding visual appeal. \* Client teaching covered in both narrative and boxes to highlight this key nursing role. \* Skills are presented in a clear, two-column format with rationales for all steps. **NEW FEATURES:** \* Critical thinking model provides a practical, clinical decision-making guide applied to the nursing process. \* Case studies in all clinical chapters include the client, family and nurse, and are developed throughout the chapter to demonstrate the ongoing nature of nursing care. \* Implementation consistently addresses health promotion, acute care, and restorative care to reflect the current focus on community-based nursing and health promotion. \* Skills include guidelines to assist nurses when delegating to unlicensed assistive personnel, Critical Decision Points, Recording and Reporting, and Home Care Considerations. \* Expanded evaluation includes both the nurse's and client's perspectives to stress today's "customer satisfaction" emphasis. \* Care Plans based on the case studies highlight key assessment data and include client goals and expected outcomes. \* Procedural Guidelines provide step-by-step instructions for performing basic skills in a clear and concise format. \* Cultural focus is reflected throughout and in special boxes to highlight the importance of cultural sensitivity. \* Collaborative care and multidisciplinary problems are addressed in narrative and care paths/maps to reflect current health care focus.
