This important and comprehensive volume vividly depicts the current status of women and girls in West Bengal. The analysis has been conducted in the framework of the socio-economic and politico-cultural ambience that has characterized the state in recent decades. The contributors highlight both areas of strength and vulnerability and clearly demonstrate that the status of women cannot be conceived as monolithic or static--it has many facets and is in a state of constant flux. The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends.

The subject 'Technical Drawing' has been introduced in the 1st semester of all branches in state polytechnics under the West Bengal State Council of Technical Education with modifications as per model syllabus issued by the All India Council for Technical Education with effect from 2013-2014 session. The conventions used in this book are as per BIS-SP-46-1988. This book has been written according the new syllabus framed by the West Bengal State Council of Technical Education for Diploma (Engineering & Technology) level. It covers all the features of the entire syllabus of 'Technical Drawing'. SALIENT FEATURES • All problems are explained in details • Examples are given on each topic along with drawings • All drawings are made using AutoCAD software • Short questions and answers are given to facilitate understanding • Exercises included on each topic

The book is primarily intended for undergraduate and postgraduate students of civil engineering. It is also useful for the students of AMIE and a diploma course in civil engineering.The book is planned as a text for the first course in foundation engineering and presents the principles and practices of selection and design of foundation for structures in a simple and concise manner. Codal references have been given to acquaint the students with prevalent methodologies adopted in practise in the country. The book provides topics of wide interest such as machine foundation, foundation on problematic soil and ground improvement

Download Free Bengali Engineering Diploma All Books Sdoents2

techniques. A large number of solved examples and multiple choice questions are included to help readers for easy understanding of the principle of design and memorising important details for practical application. The information contained in the book is also helpful for the scholars pursuing research study and practicing engineers confronted in the field. Key Features • Simple and systematic presentation of the subject matter. • A large number of solved and unsolved problems for practice. • MCQs with answers to help students appearing in competitive examinations–GATE, IES, IAS etc. • Annexure for ready references in different allied engineering topics.

A synergy of techniques on hybrid intelligence for real-life image analysis Hybrid Intelligence for Image Analysis and Understanding brings together research on the latest results and progress in the development of hybrid intelligent techniques for faithful image analysis and understanding. As such, the focus is on the methods of computational intelligence, with an emphasis on hybrid intelligent methods applied to image analysis and understanding. The book offers a diverse range of hybrid intelligence techniques under the umbrellas of image thresholding, image segmentation, image analysis and video analysis. Key features: Provides in-depth analysis of hybrid intelligent paradigms. Divided into self-contained chapters. Provides ample case studies, illustrations and photographs of real-life examples to illustrate findings and applications of different hybrid intelligent paradigms. Offers new solutions to recent problems in computer science, specifically in the application of hybrid intelligent techniques for image analysis and understanding, using well-known contemporary algorithms. The book is essential reading for lecturers, researchers and graduate students in electrical engineering and computer science.

Issues for 1919-47 include Who's who in India; 1948, Who's who in India and Pakistan.

Building Technology involves selecting suitable materials and carrying out building construction neatly. This book comprehensively covers all aspects of the subject and is written as per the requirements of civil engineering diploma students of West Bengal. The text is presented in simple, precise and reader-friendly language. It is amply supported by figures and tables. KEY FEATURES • Detailed coverage of Kerala University syllabus • Simple and precise explanations • Text sufficiently illustrated by figures and tables • Relevant IS Codes listed • Exhaustive questions given
