complete form. An abbreviation is pronounced one letter at a time.

An acronym is a set of letters that can be pronounced as a single word as a brief form of a corporate name or term made up of a group of letters that are commonly written/or spoken as a word. It

acronyms. Users will find old and new terms as well as many odd, obsolete, and slang words, but its my responsibility to put every item I found in my research into the book. The abbreviations and acronyms in this book are reproduced exactly as they were
