Book two in the Eden series. Handsome, angry and spoiled, Danny Carlow struggles to find his place in the world when his hatred for authority makes survival difficult. The only thing keeping him from completely giving up and turning to a life of crime is his friendship with clean-cut Paul Matting. More than his conscience and best friend, Paul's also the one Danny secretly pines for with every ounce of his being. Paul is a natural over-achiever with a football scholarship and straight A's to boast about. Yet he's haunted by an abusive childhood that's left him more scarred than anyone realizes. Looking for an escape from his demons, Paul has his own deviant secrets, ones he doesn't want anyone, especially Danny, to know about. When dark desires are accidentally revealed, Danny and Paul end up coming together in a clash of wild passion more tumultuous than either of them could have anticipated. Tasting the forbidden is sweet, but it turns the tables on their relationship, putting everything, even their lifelong friendship, in jeopardy.

A heart-stopping story of romantic suspense from #1 New York Times bestselling author Catherine Coulter. Lindsay Foxe is a successful model in New York, a woman who hides behind a new name to protect herself from a past of betrayal and treachery and a present that becomes fraught with danger. The product of old San Francisco wealth, the daughter of a man who despises her, her life is forever changed when she is brutally assaulted by her sister's husband, and then rejected by her family. Lindsay is finally forced to face up to her past when she meets S.C. Taylor, a tough ex-cop, turned private investigator and computer troubleshooter. He is hired to protect her; but can he both win her trust and discover who is trying to kill her and why?

They are the lost boys. Sons of mafia mistresses expected to keep their fathers' sins in the shadows. The lucky ones are forgotten. Unfortunately for Valentino "Tino" Moretti, his brother Nova was too smart to be forgotten, and too valuable to risk when he resists a life of crime. So they punished Tino instead. Forced into the cruel world of the Sicilian Mafia at twelve, Tino was broken before he was old enough to know the man he was supposed to be. Now he's what the mafia made him. The enforcer. A trained killer forbidden to love, but he did anyway. He's loved Brianna all along. Raw and beautiful, their romance was all consuming and far too dangerous. They were ripped apart a long time ago. It's not until the borgata puts out a hit on her that Brianna falls back into Tino's arms, churning up their dark past and unraveling all the Moretti brothers' closely guarded secrets. This isn't the end of the story. It's only the beginning, and it is brutal. There's a reason enforcers are considered too deadly to love. "We have to be better than them. Stronger. Faster. Smarter. Lost boys have to fly." Carlo Moretti, original lost boy

"Costa Azul" is about a place, with the same name, that is so bizarre, so unreal, and so wonderful that you will be calling your travel agent to book reservations to this fictitious exotic land. Complete with rival universities, folk traditions, and a cast of nutty, loveable characters, "Costa Azul" is impossible to resist. Try it and you will see.

Eden grew up in Acadia, a community of families who had renounced modern technology to live with the Prophet in the middle of the Arizona desert. Now she's alone in the world, clinging to her love for Calder, and dependent on kindness from a complete stranger to give her hope and a reason to go on. But even when life finally offers her what she has always craved to have, the constant void inside her never stops reminding her of all that she has lost.

On the island where they first met two lovers from opposite sides of the tracks are reunited. Now jaded and broken, Alex and Matt still can't deny their sizzling connection or the memories of one perfect, uninhibited year together. At twenty-two, Matt Tarrington is rich, good-looking and destined to be powerful, but behind that confident exterior lurks a man who resents the life his family thrust upon him. Wanting an escape, Matt heads to Mirabella Island off the coast of Florida for a year of relaxation and a few wild nights with vacationing party-girls. Matt never expected to find real passion in the arms of Alex Hunter, a handsome, laid-back local. Alex is gay, but closeted. Knowing Matt should be off limits, Alex finds the deeply-in-denial rich boy too tempting to ignore. Especially when a bet has them working together, fighting the

heat in the rundown, beachside cafe where Alex sweats for every dollar. Their love felt inevitable until youth left them vulnerable to hatred and greed. After six years of hating the lies they live to make others happy, they will have to risk it all for the second chance they both desperately need.

From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. A *New York Times* Notable Book A *Los Angeles Times* and *Cleveland Plain Dealer* Best Book of the Year Winner of the PEN/E. O. Wilson Literary Science Writing Award

Horace G. Danner's *A Thesaurus of English Word Roots* is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, *dysacusia*, *hyperacusia*. These root-starting terms then are followed by terms where the root falls behind the word, e.g., *acouesthesia* and *acoumeter*. These words are followed by words where the root falls in the middle or the end, as in such terms as *bradyacusia* and *odynacusis*. In this manner, *A Thesaurus of English Word Roots* places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

They have only one thing on their minds: taking her down. But when the gossip makes Marlee public enemy number one, she worries about more than just her reputation. Egyptologist Gerald Massey challenged readers in *A Book of the Beginnings* to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was, in fact, based on ancient Egyptian mythos. In *The Natural Genesis*, Massey delivers a sequel, delving deeper into his compelling polemic. In Volume I, he offers a more intellectual, fine-tuned analysis of the development of society out of Egypt. From the simplest signs (numbers, the cross) to the grandest archetypes (darkness, the mother figure), Massey carefully and confidently lays the cultural and psychosocial bricks of Evolutionism. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including *A Book of the Beginnings* and *Ancient Egypt: The Light of the World*.
