Once hailed by John Osborne as 'the greatest actor since Brando', latterly known as a ruined genius whose unpredictable, hellraising behaviour was legendary, Nicol Williamson always went his own way. Openly dismissive of 'technical' actors, or others who played The Bard as if 'their finger was up their arse', Williamson tore up the rule book to deliver a fast-talking canon of Shakespearean heroes, with portrayals marked by gut-wrenching passion. According to one co-star, Williamson was like a tornado on stage - 'he felt he was paddling for his life'. Fiercely uncompromising, choosy about the roles he accepted, contemptuous of the 'suits' who made money from artists, and a perfectionist who never accepted second best from himself or others, Nicol sometimes alienated those around him. But even his detractors still acknowledge his brilliance. After an extraordinary career on both stage and screen, Williamson was burnt out as an actor by the age of 60. Yet, as Gabriel Hershman explains in this authorised biography, a premature end was perhaps inevitable for an actor who always went the extra mile in every performance.

Here, in his own words, is the true story of America's wildest flying hero, of his extraordinary heroism, and of his greatest battle of all--the fight to survive. The World War II air war in the Pacific needed tough men like Colonel Pappy Boyington and his Black Sheep Squadron. The legendary Marine Corps officer and his bunch of misfits, outcasts, and daredevils gave new definition to "hell-raising"--on the ground and in the skies. Pappy himself was a living legend--he personally shot down twenty-eight Japanese planes, and won the Congressional Medal of Honor and the Navy Cross. He broke every rule in the book doing so, but when he fell into the hands of the vengeful Japanese his real ordeal began.

A captivating memoir of a biracial boy growing up in Washington, D.C., abandoned by his birth parents, and lovingly raised by a woman with deep emotional scars from her upbringing in the segregated South. The unforgettable memoir Black Sheep opens with a middle-aged Ray Studevent returning to Washington, D.C., to his "momma," Lemell Studevent. She didn't give birth to him, but she is the woman who raised him. She is the woman who stood by him through thick and thin. She is the woman who saved his life. But now in her late 80s, Lemell is lost to her Alzheimer's disease. On most days, she has no idea who she is, no recollection of the remarkable life she has lived. Every once in a while, she remembers small fragments of people, places, and things but she doesn't know how all of these pieces fit together. At night, she is often haunted by nightmares of growing up in the segregated South, of evil men with blue eyes peering through slits in their hooded robes. Frightened by Ray, this stranger, this white man with his piercing blue eyes, she threatens to shoot him. Trying not to get swept up in his own buried, decades-old feelings of abandonment, Ray knows he must work to regain her trust as he thinks back to how far they both have come. Ray Studevent grew up between two worlds. Born to a white, heroin-addicted mother and black, violently alcoholic father, the odds were stacked against him from day one. When his parents abandoned him at the age of five, after living in a world no child should experience, he was saved from the foster-care system by his father's uncle Calvin, who offered him stability and a loving home. When Calvin tragically died two years later, it was up to his widow Lemell to raise Ray. But this was no easy task. Lemell grew up in the brutality of segregated Mississippi, emotionally scarred and justifiably resenting white people. Now, she must confront these demons as she raises a mixed-race child--white on the outside, black on the inside--on the eastern side of the Anacostia River, the blackest part of the blackest city in America. This is a time of heightened racial tension, not long after the assassination of Dr. Martin Luther King Jr. and the D.C. race riots. There are guidelines if you are black, different rules if you are white, but only mixed messages for mixed-race children who must fight for acceptance as they struggle to find their identity. As Dr. My Haley, the widow of Roots author Alex Haley, wrote in the Foreword for Black Sheep, "Ray's pathway to manhood came not through the people who taught him what to do, but through the woman who taught him how to be, even as she learned for herself how to be." At a time when we are all reexamining the complex issues of race, identity, disenfranchisement, and belonging, this compelling true story shows us what is possible when we trust our hearts and follow the path of love.

Black Sheep of the Family A True Story of My Grandmother's Life By: Eleanor Werkheiser Black Sheep of the Family is the true story of author Eleanor Werkheiser's grandmother, Rhoda. A real-life Cinderella, the beautiful New Jersey native was treated unkindly by her two sisters, well into the twilight of her life. But their ugliness could never change who she was deep down: a genuinely kind and caring person.

In 1977, Tom McGrath crossed the United States in the record time of 53 days and seven minutes. Few would have guessed that he was a bar owner or that he would fight harder to stay sober than he ever did to keep running. With countless charity runs organized all over the world and his 10th bar still up and running in New York City, the question still remains, "Who is Tom McGrath?" "A compelling tale of an authentic man. Tom McGrath has lived a life with two great themes, one as a fearless ultramarathon runner, the other a harrowing descent into alcoholism. His is a story of rare heroic athletic achievement and personal survival. I could not put it down." - David Blaikie Ultra marathon World "A monument whose inscription offers truth to all who visit: the drinker;the smoker;the athlete; the Christian; the philosopher." - Jesse Riley Trans-Am Race Director 92-96"
