Hybrids. If I had to choose one word to sum up all of my problems, this would be it. Without hybrids, I wouldn't have to watch my best friend slowly becoming a monster. Without hybrids, I could let go of the mentality "hunt or be hunted." CHAS wouldn't be scouring the Earth, intent on slaughtering and using Alex to do it. Without hybrids, I wouldn't have to be on guard that losing my temper meant losing my shape. There would be no monster inside me, struggling to get out. Then again, without hybrids, I wouldn't have Wesley St. John.

Limited Edition Paperback *For a limited time get the first 3 books in the bestselling Dirty Blood series in paperback!*I killed a girl last night. I did it with my bare hands and an old piece of pipe I found lying next to the dumpster. But that's not the part that got me. The part that scared me, the part I can't seem to wrap my head around and still has me reeling, was that when she charged me, her body shifted -- and then she was a wolf. All snapping teeth and extended claws. But by the time I stood over her lifeless body, she was a girl again. That's about the time I went into shock. And that was the moment he showed up. Now, all I can do is accept the truths that are staring me in the face. One, Werewolves do exist. And two, I was born to kill them.Get hooked on werewolves in a way you've never read them before! This set contains the first 3 books in the bestselling Dirty Blood series. Follow Tara's journey through the world of werewolves and Hunters from the beginning!

The bestselling story of a girl who discovers she's much more than human...Now, with bonus content and a special 10th Anniversary Edition hardcover. I killed a girl last night. I did it with my bare hands and an old piece of pipe I found lying next to the dumpster. But that's not the part that got me. The part that scared me, the part I can't seem to wrap my head around and still has me reeling, was that when she charged me, her body shifted - and then she was a wolf. All snapping teeth and extended claws. But by the time I stood over her lifeless body, she was a girl again. That's about the time I went into shock... And that was the moment he showed up. And even now there are two thoughts that are so clear, they feel branded into my mind: One, Werewolves do exist, and two, I was born to kill them.

I thought watching my Werewolf boyfriend get arrested for murder was the worst experience of my life. But then I was knocked out and dragged off to a cell of my own by the very people who were supposed to protect me from danger. I thought being held prisoner in solitary confinement for weeks on end was the worst experience of my life. But then a visitor came, and I realized I'd been wrong all along. There are worse things than torture and death. Much worse. He wants my blood. More than that, he wants to get into my head. To use my bond to control his army, to wipe the world clean of anything with dirty blood. I can't let that happen, but if I don't he'll kill every single person I've ever cared about-beginning with my Werewolf pack. The prophecy said I would have to make an impossible choice, but I must be doing this wrong-so far every choice I've made has only led to more pain and danger and death. Hunters are pitted against Werewolves and I'm alone in my war against Gordon Steppe. I can't fight him off anymore; all I can do is try to keep him out of the important places. And I'm failing at even that. I thought the demons were out there, clearly marked and clinging to the shadows. But they're not. The monsters are within the ranks of those sworn to protect. The enemy is among us.

Forty-six. That's how many hybrids survived the Hunter attack in the woods after I revived them with an injection of my blood. That's how many followed me home to Frederick Falls. And that's how many were now mentally linked to me through a blood bond. Two days. Three valium. Fourteen hours of sleep. That's what it took to realize I wasn't losing my mind as a result of the noise in my own head. Sixteen. That's how many days have passed since I almost killed Alex. That's how many days I've sat by his bedside, waiting for him to wake up. To ease the guilt, to understand his betrayal, to remember the exact shade of brown in his eyes. Zero. That's my chances of skating by with Gordon Steppe and the Hunter Council. They want me for questioning. I'm afraid what'll happen if I give them answers.

I know what I 'm not. Human. I can 't remember my life before Earth, but I 've grown up hearing the stories of a planet ravaged by war and a people in need of a leader who will bring them out of the darkness. I 'm supposed to be their light. My future terrifies me. But I 'm done waiting to have a real life. If I ever want a chance to live free of the Shadows, I 'll need to fight for it because freedom is never free. No matter what galaxy you call home.

She 's not looking for Mr. Right. But damn if he doesn 't look like Mr. Right Now... Summer Stafford Finding the world's hottest farmhand at my dinner table was unexpected, but it doesn 't change anything. I 've come home to manage the family business, not to get involved with the help. Even if the sight of him in those faded denim jeans makes me want to jump his bones. Ford O 'Neal Summer gets under my skin and makes me want to say things like "girlfriend" and "relationship." But I 'm determined not to let a farmer 's daughter ruin my plans. When the season ends, I 'm gone. And I 'll be damned if I 'm leaving my heart behind. When Summer and Ford finally give in to their attraction, how far will they let things go before fate has its way with one hot-as-sin farmhand and one stubborn city girl.

Forty-six.That's how many hybrids survived the Hunter attack in the woods after I revived them with an injection of my blood. That's how many followed me home to Frederick Falls. And that's how many were now mentally linked to me through a blood bond.Two days. Three valium. They want me for questioning. I'm afraid what'll happen if I give them answers.

Ven has never met eighteen-year-old Raven, the girl she is a clone of, but when Raven's life is threatened, Ven is forced out of the lab and into the real world to draw out the people trying to harm Raven.

From New York Times and USA Today bestselling author Heather Graham comes a new story in her Krewe of Hunters series... Any member of the Krewe of Hunters is accustomed to the strange. And to conversing now and then with the dead. For Andre Rousseau and Cheyenne Donegal, an encounter with the deceased in a cemetery is certainly nothing new. But this year, Halloween is taking them across the pond—unofficially. Their experiences in life haven 't prepared them for what 's to come. Cheyenne 's distant cousin and dear friend Emily Donegal has called from London. Murder has come to her neighborhood, with bodies just outside Highgate Cemetery, drained of blood. The last victim was found at Emily 's doorstep, and evidence seems to be arising not just against her fiancé, Eric, but against Emily, too. But Emily isn 't just afraid of the law—many in the great city are beginning to believe that the historic Vampire of Highgate is making himself known, aided and abetted by adherents. Some are even angry and frightened enough to believe they should take matters into their own hands. Andre and Cheyenne know they 're in for serious trouble when they arrive, and they soon come to realize that the trouble might be deadly not just for Emily and Eric, but for themselves as well. There 's help to be found in the beautiful and historic old cemetery. And as All Hallows Eve looms, they 'll be in a race against time, seeking the truth before the infamous vampire has a chance to strike again. **Every 1001 Dark Nights novella is a standalone story. For new readers, it 's an introduction to an author 's world. And for fans, it 's a bonus book in the author 's series. We hope you'll enjoy each one as much as we do.**
