The Bottom of the Jar is the journey of a boy finding his footing in the heart of Fez during the 1950s, as Morocco began freeing itself from the grip of the French colonial occupation. The narrator vividly recalls his first encounters with the ebullient city, family dramas, and the joys and turbulence of his childhood. He recalls a renegade, hashish-loving uncle, who at nightfall transforms into a beloved Homer, his salt-of-the-earth mother's impassioned pleas to a Divine ear, and his father's enduring generosity. Told in the spirit of a late-night ramble among friends where hilarious anecdotes and poignant recollections flow in equal parts, Laâbi's autobiographical novel offers us a generous glimpse into the formative experiences of a great poet, whose integrity and commitment to social justice earned him an eight-and-a-half year prison sentence during Morocco's "year of lead" in The 1970s. From the Trade Paperback edition.

The whole of African history unfolds in this brilliant novel from one of the continent's major writers. The story is unified by the actions of one man, Mankunku, a "destroyer," who is born in mysterious circumstances in a banana plantation and whose identity is as variable as that of his land. This novel traces his development along with that of his unnamed country, from the precolonial era, through the horrors of European subjugation, to independence and the complexities of the postcolonial nation. Along the way, charlatans and saints, workers and bureaucrats, warriors and peacemakers are introduced in a moving m-lange of laughter and terror. First published in France in 1987, The Fire of Origins received the 1988 Prix de la Fondation de France and the Grand Prix Littéraire d'Afrique Noire, and has been translated into Spanish, Danish, Norwegian, and Japanese. Mythical, lyrical, powerful, and surreal, it is one of the most ambitious works of fiction to come out of sub-Saharan Africa. This replaces 155652420X.

As a criticalexploration of palaeontological art, All Yesterdays asks questions about what is probable, what is possible, and what iscommonly ignored.Written by palaeozoologist Darren Naish, and palaeontological artists John Conway and C.M. Kosemen, All Yesterdays isscientifically rigorous and artistically imaginative in its approach to fossils of the past - and those of the future.
