If you are either an Airbus-driver or a serious flight simmer, this collection of information is something that should pique your interest. Learning to understand and operate one of the world's most complex machines is a tall request from a simple book like this ... and Captain Mike Ray is up to the task. His treatment of the airplane systems and operational techniques is written in an interesting and entertaining way ... and makes learning the difficult and complex ... well, almost easy. This over 400 page document is lavishly illustrated in full color to take advantage of the increased learning potential in the use of color. There can be no doubt that the Airbus A320 is a color driven systems airplane and this book attempts to take full advantage of the use of color in describing and illustrating the operations of the airplane systems and controls. Whatever price penalty is incurred in the purchasing of this color volume is well worth the investment in increased learning potential.

Captain Mike Ray has placed in this unique document the essence of how to fly the beautiful, fantastic 757/767 airplane. This 400 page, full color document is the definitive guide and contains a complete catalog of the details and procedures for passing the airline style check-ride. Designed with the professional pilot in mind ... it has all the required information to pass the "check-ride" in one place. The book uses a coil bound full color presentation that offers a lay-flat tool-set for easy access to the tools needed to look like an "Ace". Presented in a clear and interesting manner, the dense and complex material is displayed in an almost entertaining manner ... and it also appeals to the accomplished flight simulation aficionado.
