If you want to learn to play the keyboard, you certainly need this book. This book enables you to play songs in a step by step manner using the Scientific Pitch Notation System (C, D, E, F, G, A, B). Through this book, you learn to train your ears by hearing music. Ear training is the soul of musicians that builds a bridge between the language of music and sounds designated by that language. The more we train our ears to recognize this connection, the better we get at playing music as our ability to observe musical structures improve. Play Keyboard with Ease contains step-wise instructions as well as Chords, Notations and Scales of top Bollywood songs.

Have you always been interested in learning to play an instrument? Have you always wanted to get beyond the bare basics of the piano but don't know where to get started? Are you ready to start sight reading music like a pro, but don't have the slightest idea what the difference between a key signature and a time signature is, or how either are noted on paper? If so, then keep reading... This is the book for you! As Book 4 in the Piano Music for Beginners series, this book is designed to help you begin working on all of those skills that you will need to ensure that you are able to work as effectively as possible at managing your abilities to read your sheet music. From learning how to understand notes and semitones to being able to understand rests and other essential information that is provided for you when you're ready to read your own music. We'll begin at looking at the staff, the notes on them, and how to understand the clefs and general notation, and from there, we will begin to address what it will take for you to learn musical notation as well. Everything in this book is designed to help you, from start to finish, to learn what it will take for you to learn how to read sight music. It can be a daunting task early on when you don't know where to begin, but the truth is, sight reading doesn't have to be difficult. It doesn't have to be scary. All you have to do is remember one simple fact: Sight music is designed to be read. It is meant to be as user friendly as possible so that it is as accessible to as many people as is possible. If you take the time to learn and you are diligent in your studies, you, too, can learn what it will take to read this music and get started with playing piano. In particular, within this book, you can expect to find: - Information about the staff and how to read sight music - An understanding of middle C and why it is essential-on paper and in practice - What the difference is between tones and semitones and how you can better understand how to use them - How to recognize, read, and remember both the bass and treble clef with ease so you aren't constantly wondering what note goes where - Learning all about time signatures, key signatures, and tempos, as well as how to use them - Why a metronome is so essential to practicing - A list of the most common piano notations that come into play, ranging from accidentals, dynamics, and more - Where to look to start practicing your skills with ease - AND MORE!! Remember, there are no rules that say that learning

how to play the piano needs to be difficult. There are no rules that say that you need to struggle to read sight music either. All you need is diligence and a good guide. Scroll up now and click on BUY NOW today to get this one provided for you so you can begin to get to work on
