Brand new to database administration? Take it one step at a time with Database Fundamentals, a series designed to support a new career or lifelong journey in IT. This installment is devoted to data: getting it into and out of tables and databases. Adam Wilbert shows how to get the most out of each data type, including numbers, characters, and specialized types like spatial data. Next are queries. Learn how to write commands and invoke functions in the SQL Editor to select just the records you want. Finally, get comfortable inserting, updating, and deleting data with the SQL Server Management Studio (SSMS), a suite of graphical tools and rich editors that make working with databases much more intuitive. Do you want to test your knowledge? Watch the challenge videos to practice what you've learned along the way. Note: This course will also prepare certification candidates for the Microsoft Technology Associate Exam 98-364, Database Administration Fundamentals.

Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs. The Microsoft Technology Associate (MTA) is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers. The MTA program curriculum helps instructors teach and validate fundamental technology concepts and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies. Database Administration, Second Edition, is the definitive, technology-independent guide to the modern discipline of database administration. Packed with best practices and proven solutions for any database platform or environment, this text fully reflects the field's latest realities and challenges. Drawing on more than thirty years of database experience, Mullins focuses on problems that today's DBAs actually face, and skills and knowledge they simply must have. Mullins presents realistic, thorough, and up-to-date coverage of every DBA task, including creating database environments, data modeling, normalization, design, performance, data integrity, compliance, governance, security, backup/recovery, disaster planning, data and storage management, data movement/distribution, data warehousing, connectivity, metadata, tools, and more. This edition adds new coverage of "Big Data," database appliances, cloud computing, and NoSQL. Mullins includes an entirely new chapter on the DBA's role in regulatory compliance, with substantial new material on data breaches, auditing, encryption, retention, and metadata management. You'll also find an all-new glossary, plus up-to-the-minute DBA rules of thumb.

Upon its original publication, *Plagues and Peoples* was an immediate critical and popular success, offering a radically new interpretation of world history as seen through the extraordinary impact--political, demographic, ecological, and psychological--of disease on cultures. From the conquest of Mexico by smallpox as much as by the Spanish, to the bubonic plague in China, to the typhoid epidemic in Europe, the history of disease is the history of humankind. With the identification of AIDS in the early 1980s, another chapter has been added

to this chronicle of events, which William McNeill explores in his new introduction to this updated edition. Thought-provoking, well-researched, and compulsively readable, *Plagues and Peoples* is that rare book that is as fascinating as it is scholarly, as intriguing as it is enlightening. "A brilliantly conceptualized and challenging achievement" (Kirkus Reviews), it is essential reading, offering a new perspective on human history.

2004 Green Book, Background Material and Data on Programs Within the Jurisdiction of the Committee on Ways and Means, March 2004. 18th edition. Provides information about Federal assistance programs, including: social security; medicare; supplemental security income; unemployment compensation; railroad retirement; trade adjustment assistance; Aid to Families with Dependent Children; child support enforcement; child care; child protection, foster care and adoption assistance; tax provisions; and the Pension Benefit Guaranty Corporation. 108th Congress, 2d Session.
