The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. P2 is a very challenging paper which builds on the knowledge and skills acquired at earlier levels in the preparation and analysis of financial reports for single entities and groups. It takes these areas to a higher level, putting into context the role of the accountant as a professional steward and adviser, who is responsible to the stakeholders of an organisation. It has five main sections: 1. Regulatory and ethical framework and current issues 2. Reporting the financial performance of entities 3. Group financial statements 4. Specialised entities 5. Analysis of the financial performance of entities. The main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level. We provide material for both International and UK streams. The study text has been reviewed by the examiner and takes account of his advice on approaching the paper. Ethics, which have an impact on all aspects of financial reporting, are introduced at an early stage in the text, as is corporate social responsibility, so that students do not neglect these topics when covering the numerical areas. Accounting standards come next, combining revision with extension into more advanced areas. After a brief revision of basic groups, the more advanced consolidation topics are covered. Current issues are covered throughout the text within the appropriate topics, and also summarised towards the end of the book. The question bank contains practice at the case study-style question you will encounter in the real exam. BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

Study & Master Life Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Life Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each strand * a mind map at the beginning of each module that gives an overview of the contents of that module * activities throughout that help develop learners' science knowledge and skills as well as Formal Assessment tasks to test their learning * a review at the end of each unit that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues. * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention

"5 solved Question papers and 5 self-assessments papers and 5 self-assessment papers with hints covering important concepts from an examination perspective. All typologies of questions specified by CISCE included for better examination success. On tips notes for quick revision. Answering tips for better understanding of the concepts. Mind maps to unlock the imagination and come up with new ideas. Examiner comments for clearer thinking."
