This is the most comprehensive, up-to-date, and easily accessible field guide to the mammals of Borneo—the ideal travel companion for anyone visiting this region of the world. Covering Sabah, Sarawak, Brunei, and Kalimantan, the book provides essential information on 277 species of land and marine mammals and features 141 breathtaking color plates. Detailed facing-page species accounts describe taxonomy, size, range, distribution, habits, and status. This unique at-a-glance guide also includes distribution maps, habitat plates, regional maps, fast-find graphic indexes, top mammal sites, and a complete overview of the vegetation, climate, and ecology of Borneo. Covers 277 species—from orangutans and clouded leopards to otters and other marine mammals Features 141 superb color plates Includes facing-page species accounts, distribution maps, fast-find graphic indexes, and more Describes Borneo's vegetation, climate, and ecology

Originally published under title: A field guide to the birds of Borneo: Singapore: Talisman, 2009.

This second edition lists all 669 bird species appearing in Borneo with accompanying distribution maps, describes the 52 species endemic to Borneo in detail, and includes over 2000 colour images.

Published to great critical acclaim in 2009 and with a 2nd edition in 2011, this is a fully revised and updated edition of the most user-friendly field guide to the birds of Borneo, covering Sabah, Sarawak, Brunei, and the Indonesian states of Kalimantan. The book gives descriptions of 669 species living or reported on the island, including 51 endemic species. These are superbly illustrated in 141 colour plates with more than 2,000 full colour bird images, including most of the sexual variants and immature forms of polymorphic species. Each plate is accompanied by species descriptions covering taxonomy, size, call, range, distribution, habits and status. Distribution is shown by detailed thumbnail maps. There are 7 habitat plates, 12 regional maps showing Borneo's top 130 birdwatching sites, fast-find graphic indexes to the birds of Kinabalu, and a full overview of vegetation, climate and ecology.

This is a compact bird identification guide for any birdwatcher visiting Borneo. In features regional distribution maps showing the best bird localities, up-to-date tips on bird-watching and information on bird biology and behaviour.

This fully updated fourth edition of Bradt's Borneo remains the essential guide for visiting this island paradise, focusing on Sabah, Sarawak and Brunei. With all the latest practical information, plus new features such as coverage of the gateway cities of Kuala Lumpur and Singapore, and a review of the political situation and conservation issues, Bradt's Borneo offers everything you need.Expert author Tamara Thiessen offers in-depth background chapters on the island's exceptional biodiversity and exotic tribal cultures, from the sultry rainforests and sapphire straits of Sabah to the incredible river journeys of Sarawak. Also included is insider information for touring the island, including regional capitals, rural outposts and national parks. As a world-recognised biodiversity hotspot, Borneo's variety and richness of plant and animal life is almost unparalleled. Just 10ha of Bornean rainforest can support up to 700 tree species -more than the number found across the whole of North America - while an estimated 5,000 of Borneo's flowering plant species and 500 animals are endemics, that is unique to the island, including the Bornean Orangutan, which spends more time on the ground than its purely arboreal Sumatran cousins. Also covered are internationally known locations such as Brunei's Ulu Temburong National Park, the stunning coral reefs of the east and west coasts and, in Sabah, the Danum Valley and Sepilok Orangutan Rehabilitation Centre.From Brunei's mesmerising mosques to the limestone pinnacles of Sarawak's Gunung Mulu National Park, there's plenty to discover in this ideal companion for a successful trip.

Covering the whole of the island of Borneo, this fully revised and updated edition is indispensable for anyone interested in the avifauna of this diverse region. With authoritative text and packed with sumptuous colour plates, Birds of Borne is the definitive guide to the island's birdlife. This new edition features an extensive introduction providing information on geography, climate and habitat. The accurate text covers the identification, voice and status of all species and distinctive subspecies of the island, which is accompanied by detailed distribution maps as well as 144 colour plates covering all major races and plumage variations.

Sandwiched between the South China, Sulu and Celebes Seas, Borneo is the third biggest island in the world and also the only island which is home to three nations: Malaysia, Indonesia and Brunei. Its biodiversity is also one of the greatest in the world, with tropical rainforest and rivers covering over 70 percent of Malaysian Borneo and hundreds of unique flora and fauna species. Despite extensive destruction of its rainforests over the past couple of decades, Borneo remains a floating natural paradise of tropical rainforest, jungle and wild animals. Its past is one of highlands, islands, head-hunters, sultanates and sea-going myths and therefore offers a rich cultural experience for adventure travelers, divers and sunbathers alike.
