During the first two years of study, most students majoring in mathematics and statistics complete a sequence of calculus courses and a linear algebra course. With the help of an adviser, you select ...

Mathematics and Statistics
The Full-Time MBA program begins with a cohort of students taking the core classes together ... they can use as an introduction or refresher to the course material. These online modules include: ...

For the three-semester calculus course. Proven in North America and abroad, this classic text has earned a reputation for excellent accuracy and mathematical rigour. Previous editions have been praised for providing complete and precise

statements of theorems, using geometric reasoning in applied problems, and for offering a range of applications across the sciences. Written in a clear, coherent, and readable form , Calculus: A Complete Course makes student comprehension a clear priority. Dr. Christopher Essex joined Bob Adams as a new co-author on the 7th edition and has an expanded role in the 8th edition. Instructors and students will appreciate new and expanded examples, new exercises, and a new Chapter 17: Differential Forms and Exterior Calculus.

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. Proven in North America and abroad, this classic text has earned a reputation for excellent accuracy and mathematical rigour. Previous editions have been praised for providing complete and precise statements of theorems, using geometric reasoning in applied problems, and for offering a range of applications across the sciences. Written in a clear, coherent, and readable form, Calculus: A Complete Course makes student comprehension a clear priority. 0134588673 / 9780134588674 Calculus: A Complete Course Plus MyMathLab with Pearson eText -- Access Card Package Package consists of: 0134154363 / 9780134154367 Calculus: A Complete Course 0134528727 / 9780134528724 MyMathLab with Pearson eText -- Standalone Access Card -- for Calculus: A Complete Course

The complete, Calculus: Graphical, Numerical, Algebraic 3e text PLUS 5 additional chapters: Uses the full suite of supplements available for Calculus: Graphical, Numerical, Algebraic 3d Ed, AP Edition. Downloadable instructor's manual is available for the additional chapters. Vectors and Analytic Geometry in Space Vector-Value Functions and Motion in Space Multivariable Functions and Their Derivatives Multiple Integrats Integration in Vector Fields

This package includes a physical copy of Calculus: A Complete Course, 8th edition by Robert A. Adams and Christopher Essex, as well as access to the eText and MyMathLab Global. For the three-semester calculus course. Proven in North America and abroad, this classic text has earned a reputation for excellent accuracy and mathematical rigour. Previous editions have been praised for providing complete and precise statements of theorems, using geometric reasoning in applied problems, and for offering a range of applications across the sciences. Written in a clear, coherent, and readable form, Calculus: A Complete Course makes student comprehension a clear priority. Dr. Christopher Essex joined Bob Adams

as a new co-author on the 7th edition and has an expanded role in the 8th edition. Instructors and students will appreciate new and expanded examples, new exercises, and a new Chapter 17: Differential Forms and Exterior Calculus. MyLab and Mastering from Pearson improve results for students and educators. Used by over ten million students, they effectively engage learners at every stage. MyMathLab is being used in universities all over the world to improve student performance.MyMathLab has immersive content and engaging tools, along with time-saving automatic grading. MyMathLab is everything that I need to get good results from my students...It saves me a lot of time so I have more time to do what I really should do and that's teach and help my students. - Dr Morten Brekke, Agder University, Norway. With MyMathLab, students gain knowledge that they will use throughout their lives, and universities gain a partner deeply committed to helping students and educators achieve their goals. For students *Personalised study plan: MyMathLab gives you the opportunity to test yourself on key concepts and skills and generates a study plan based on topics you have not yet mastered. The study plan links to interactive exercises with guidance, to give you help when you need it most. *Pearson eText gives you access to an eBook that can be used on the go, and allows you to highlight, search and take notes as you read online. Access to the eBook depends on the package you have bought. *Help Me Solve This breaks the problem down into manageable chunks so you can work through the methodology a stage at a time, applying what you've learnt as you go along.* The questions are free response so you can give truly mathematical answers using the intuitive yet comprehensive maths palette or the graphing tool. For educators *Online assignments, tests, quizzes can be easily created and assigned to students. *Gradebook: Assignments are automatically graded and visible at a glance. Register now to benefit from these resources. A student access code card is included with your textbook at a reduced cost. To register with your code, visit www.mymathlab.co.uk/global For educator access, contact your Pearson account manager. To find out who your account manager is, visit www.pearsoned.co.uk/replocator For more instructor resources available with this title, visit www.pearsoned.co.uk
