Photographic imagery has come a long way from the pinhole cameras of the nineteenth century. Digital imagery, and its applications, develops in tandem with contemporary society ' s sophisticated literacy of this subtle medium. This book examines the ways in which digital images have become ever more ubiquitous as legal and medical evidence, just as they have become our primary source of news and have replaced paper-based financial documentation. Crucially, the contributions also analyze the very profound problems which have arisen alongside the digital image, issues of veracity and progeny that demand systematic and detailed response: It looks real, but is it? What camera captured it? Has it been doctored or subtly altered? Attempting to provide answers to these slippery issues, the book covers how digital images are created, processed and stored before moving on to set out the latest techniques for forensically examining images, and finally addressing practical issues such as courtroom admissibility. In an environment where even novice users can alter digital media, this authoritative publication will do much so stabilize public trust in these real, yet vastly flexible, images of the world around us.

The old masters of dealt only with the static features of the positional rules of chess. But these are insufficient to explain the basics of chess. The problem is that chess, like in other sciences, has undergone a dynamic revolution, but chess literature doesn't yet reflect it. In this major work Aagaard accessibly explains the rules of attack (the exploitation of a dynamic advantage), balanced between understandable examples, and deep analysis. Five years in the making, this book deals with weak kings, sacrifices, various minor attacking themes, intuitive sacrifices, opposite castling, modern king hunts, and enduring initiative.

Mrs. Jeffries and Inspector Witherspoon investigate the murder of a woman who had no shortage of enemies in this novel in the New York Times bestselling Victorian Mystery series. Hannah Cameron was not well-liked, but who stabbed her in the back? While almost everyone believes she was killed by a burglar—Mrs. Jeffries needs more evidence to be convinced. But when the case is given to Inspector Nivens, Mrs. Jeffries and the rest of the household will have to tiptoe around the case to find the real killer...
