That's because with Canon's technology, you don't just get video and photography - you get the best of both.

 At the heart of the ZR950's performance as a digital still camera is Canon's exclusive DIGIC DV signal processing circuit. Because video and still images have different color requirements, DIGIC DV processes the two differently. So, along with stunning video images, you also ...

Between 1973 and 2016, the ways to manipulate DNA to endow new characteristics in an organism (that is, biotechnology) have advanced, enabling the development of products that were not previously possible. What will the likely future products of biotechnology be over the next 5-10 years? What scientific capabilities, tools, and/or expertise may be needed by the regulatory agencies to ensure they make efficient and sound evaluations of the likely future products of biotechnology? Preparing for Future Products of Biotechnology analyzes the future landscape of biotechnology products and seeks to inform forthcoming policy making. This report identifies potential new risks and frameworks for risk assessment and areas in which the risks or lack of risks relating to the products of biotechnology are

Completely revised Second Edition provides a foundation for the prevention, recognition, assessment, management, disposition, and rehabilitation of sports-related injuries and illnesses as it integrates basic medical concepts with relevant scientific information. This book speaks to students in coaching, exercise science, recreation and teacher education, for learning what to do as the first on-site respondent to a sports-related injury. Guidelines are provided to help identify common conditions initially cared-for on-site, and when to know to refer an individual to advanced care. The text contains major revisions and includes illustrations and additional tables. Connection Website: connection.LWW.com/go/andfund.
